Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Engineer's Certification in support of 302-FM application license to cover BMPED-20101206AAJ,
KZLW.

Ms. Dortch:

In December of 2010, Javajava Radio was contracted to supervise the construction of transmission facilities for KZLW-FM, Gretna, Nebraska. I personally coordinated work on the facility between the antenna design lab, Howell Laboratories/Shively Antennas, and the tower owners, American Tower Corporation, the antenna installation company and Nebrasak certified surveyors.

I also personally supervised the site survey, as well as installation of the directional antenna. *All equipment designed to establish directivity of the antenna was installed as per manufacturer's specification, and in compliance with the above mentioned construction permit. All construction was completed on February 19, 2011.*

My qualifications are a matter of record with the FCC, having constructed and certified dozens of radio facilities, including at least thirteen directional FM stations. If you should have need of further information, please feel free to contact me via any of the methods listed above.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Rick Jesse". The signature is fluid and cursive.
