## CIVIL ENGINEERING & LAND SURVEYING

April 4, 2003

Mr. Steve Minshall  
Clear Channel Communications  
2121 Lancey Drive  
Modesto, CA 95355

RE: Tower Project  
San Joaquin County

Dear Mr. Minshall;

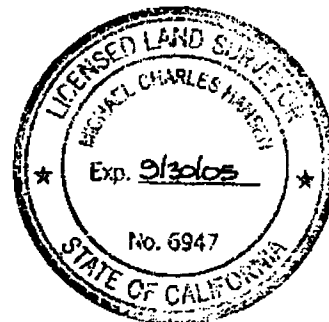

On March 12, 2003 one of our survey crews made several as-built measurements of the Lambda Mount of the KOSO-Patterson, CA antenna. At that time, the Lambda Mount appeared to be oriented as required by the plans prepared by Electronics Research, Inc.

On March 26, 2003 one of our survey crews made several as-built measurements of the first section of the radiating element of the KOSO-Patterson, CA antenna. At that time, the antenna appeared to be oriented correctly at a bearing of N 96°00'00" E.

Should you have any questions, or if you need any additional information, please do not hesitate to contact me.

Sincerely,

Michael C. Hansen  
Vice-President
