

**MINOR CHANGE APPLICATION**  
**SEVEN RANGES RADIO CO., INC.**  
**WVTV (FM) RADIO STATION**  
**CH 245A - 96.9 MHZ - 3.5 KW**  
**WILLIAMSTOWN, WEST VIRGINIA**  
**August 2012**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Seven Ranges Radio Co., Inc. ("SRR"), licensee of WVTV, Channel 245A, Williamstown, West Virginia. SRR herein proposes to relocate WVTV to a new transmitter site adjacent to its currently licensed site with a slight increase in center of radiation above ground and a reduction in the height above average terrain, while maintaining the licensed height above mean sea level.

SRR is proposing to install the WVTV antenna on a new tower structure. As the tower is less than 200 feet in height, it does not require FCC registration nor FAA approval.<sup>1</sup> Therefore, the Federal Aviation Administration ("FAA") has not been notified of this proposal.

The proposed new site for WVTV is within 3.2 miles of directional AM station WLTP, 910 kHz, Marietta, Ohio. As such, pursuant to §73.1692(d), prior to construction of the new WVTV tower, SRR will notify the licensee of WLTP, so that the station can determine operating power by the indirect method. Both prior to construction and after completion of construction, a partial proof of performance shall be conducted to establish that the AM array has not been adversely affected and to determine if detuning of the new WVTV tower at the WLTP frequency

---

1) Pursuant to the FCC's TOWAIR program and the FAA's Notice Criteria Tool.

is necessary. The results of the partial proof will be filed with the Commission on Form 302-AM when the license application to cover the herein sought permit is filed.

All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to Cumulus and is available to the Commission upon request.<sup>2</sup>

---

2) The undersigned has reviewed only the radiofrequency exposure issues at the base of the tower. All data relating to broadcast facilities was extracted from the CDBS database on the date of this application. We assume no liability for errors or omissions which may be adverse to the request contained herein.
