Subject: WUWF in Pensacola

Good day Mr. Bickel,

I hope this day finds you well. I am writing on behalf of WUWF 88.1 FM in Pensacola. On July 11 2017, we requested and were granted an Engineering STA from the FCC, due to a massive power surge our transmitter suffered. FILE NO. BSTA - 20170711AAE.

I am please to notify the FCC that as of this date, September 7th, 2017, WUWF has returned to full power operations as authorized by the FCC. I looked for a form to fill out to convey this information, but could not find such on the FCC site. If such a form is required, I'd be happy to complete any documents needed to comply with FCC requirements.

Thank you for your assistance with this matter, please don't hesitate to contact me if I can provide more information, or if more actions on our part are needed.

Cordially,

Joe Vincenza
Director of Content & Operations
WUWF Public Media, Pensacola
(850) 474-2787
