

APPLICATION FOR STATION LICENSE
MILLER COMMUNICATIONS, INC.
W247BN FM TRANSLATOR STATION
CH 247D - 97.3 MHZ - 0.25 KW
SANTEE, SOUTH CAROLINA
May 2009

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Miller Communications, Inc. ("MCI"), licensee of FM translator station W249BL, Channel 249D, Santee, South Carolina. MCI has a construction permit (BPFT-20090220ADV) to make minor changes to the W249BL facilities, specifically changing to Channel 247D. MCI herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator W247BN.¹

There are two special operating conditions/restrictions listed on the W247BN permit. The first condition states that MCI will reduce the power of W247BN, or cease operation, to insure persons with access to the site are not exposed to radio frequency radiation levels in excess of the FCC's guidelines. MCI states that it will, in cooperation with other tower users, reduce the power of W247BN or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

The second condition states that an application for license, FCC Form 350, must be on file prior to commencing program tests with the facilities authorized in the permit. The submission of

1) This is the replacement call sign for W249BL as a result of the frequency change.

this instant application satisfies the condition. Based on the foregoing, it is believed all conditions on the W247BN construction permit have been satisfied.
