RE: WXRT Antenna Tower, 4949 West Belmont, Chicago, Illinois

On March 8, 2005 we took measurements of the WXRT antenna located at the southeast corner of West Belmont Avenue and North Lavergne Avenue in Chicago and calculated the orientation of the 6 Bay Antenna. We determined the azimuth orientation from Geodetic North of the 6-bay antenna to be $148^{\circ}29'03'' \pm 2^{\circ}$. The mid-point of the 6 antennas is located at an elevation of 505.4 feet ± 1 foot based upon Chicago City Datum.
