Dear Applicant:

This is in reference to the above-captioned application for a construction permit for a digital television (DTV) station on channel 26 at Jamestown, NY.

We have completed a technical review of your application and conclude that the application cannot be granted because it fails to adequately protect co-channel stations for post transition at Belleville and Owen Sound, Ontario. This is in violation of the *Broadcast Agreement between the Commission and Industry Canada, released December 15, 2008* (available on the Internet at [www.fcc.gov/ib/sand/agree](http://www.fcc.gov/ib/sand/agree)).

Accordingly, you must within 30 days of the date of this letter, amend your application so that it will meet with the requirements of the Broadcast Agreement. It is recommended that at this point in time you conduct a complete technical analysis of your proposal in an effort to correct the deficiency outlined in this letter as well as any other technical problems that might exist. You are cautioned that your failure to comply with the requirements of this letter within the time specified herein may result in the dismissal of your application pursuant to Section 73.3568(a) of the Commission's Rules.

Sincerely,

Kevin R. Harding  
Associate Chief  
Video Division  
Media Bureau
