In Re: KADD-FM1, Logandale, NV  
Facility ID # 177819  
BMPFTB-20110506ABF

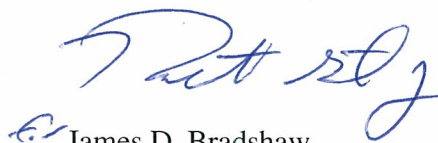

Dear Applicant:

This refers to the above-captioned application for a new FM booster station in Logandale, Nevada.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1231(h) since the 60 dBu service contour of the proposed booster is not entirely within the 60 dBu protected contour of primary station KADD(FM) specified in BLH-20080201BGH (See enclosed)<sup>1</sup>. The application fails to address this violation.

Accordingly, Application BMPFTB-20110506ABF IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau

---

<sup>1</sup> Section 74.1231(h) states that "an FM booster station will only be authorized within the protected contour of the class of station being rebroadcast as predicted on the basis of the maximum powers and heights set forth in that section for the applicable class of FM broadcast station concerned."

THE FOLLOWING IS A LIST OF THE DATA WHICH APPEARS ON THE ABOVE MAP

BOTTOM LATITUDE: 35.81 TOP LATITUDE: 37.64 LEFT LONGITUDE: -115.48 RIGHT LONGITUDE: -113.07

MAP: ENLARGED CONUS MAP PROJECTION: Lambert Equal-area CENTER LAT: 36.72 LONG: -114.28 GRID SPACING: 0.50

KILOMETERS / INCH = 33.31

No topographic data is available for this location.

A1 - Number of radials where free space equation was used for field strength calculations.

A7 - Number of radials where a HAAT less than 30 meters was adjusted to 30 meters.
