

Citicasters Licenses, L.P.
WTRZ-FM Walden, TN
Facility ID# 14735
BPH-20030113ACG
Engineering Exhibit
23 April 2004

By this amendment Citicasters desires a minor amendment to the above cited application. It is desired to correct a transcription error in the height above mean sea level figure given in the Section 3-B Question 7, by a reduction from 433 to 432 meters, this will bring the application and antenna structure registration into agreement. Additionally a corresponding change in height above average terrain question 9 from 93 to 92 meters is made.

To demonstrate compliance with Section 73.315, attached is a contour map showing the proposed transmitter location, the reference coordinates of the community of license, the civic boundary of the community of license, as well as 70 dBu contours predicted by both the Commissions F50:50 curves, and the Longley – Rice propagation model. Both contours show that the 100% of the community of license will receive 70 dBu or better service from the requested transmitter site.
