NEW (FM) MM-FM904-C3 Franklin, LA (Fac Id 190402)
NEW (FM) MM-FM941-C Lead, SD (Fac Id 190403)
NEW (FM) MM-FM963-A Mona, UT (Fac Id 190404)

Due to the fact that Alexander Berger is the sole officer and director and holds a 51% majority equity and voting interest in Alex Media, interests held by minority stockholders Darryl Delawder and Evan Carb are not cognizable or attributable to Alex Media under current Commission Policies and Rules.¹

Neither Alex Media, nor its sole majority shareholder holds a cognizable interest or local marketing agreement in any existing FM or AM station or proposed station with any overlapping predicted principal community contours with the proposed station, a grant of the instant modification application will result in Alex Media having a cognizable interest in but a single broadcast station in the market and would therefore comply with the requirements of 73.3555(a).

Accordingly following a grant of the instant application, Alex Media and its sole majority shareholder will remain in full compliance with the multiple ownership restrictions contained within Section 73.3555(a) of the Commission's Rules.²

¹ Alex Media's two non-cognizable minority shareholders, Evan Carb and Darryl Delawder hold interests through Miriam Media, Inc., in FM construction permits for KMLS (FM) Miles, TX (Fac Id - 170983) – CP Off Air and KMMI (FM) Loleta, CA (Fac Id - 170982) – CP Off Air. Such interests are not attributable to Alex Media, and in any event would not overlap the contour of the proposed station.

² In exhibit 4 to this application, Alex media provided copies of a Time Brokerage Agreement and Purchase option for the instant station with Timber Ridge Ministries, a local church holding an FM license (WTRM) in the Winchester, Virginia area. Pursuant to that agreement, TRM will lease time on WTCF for a year.
