

Multiple Ownership Study

Applicant:	RJ Broadcasting LS, LLC
Proposed Station and Community:	KGTM(FM) Rexburg, ID KQEZ(FM) Shelley, ID
County of License:	Madison County Bingham County
BIA/Arbitron Market:	No
Type of Ownership Study:	Modified Contour Overlap Method
Number of Mutual Overlap Markets:	3

The Communities of License for the stations subject to this study are not located in a county which BIA and Arbitron define as being part of an Arbitron Metro nor have the stations appeared “above the line” in any Arbitron Ratings as reported by BIA in the previous two years. Therefore, the Modified Contour Overlap Method shall be employed to demonstrate multiple ownership compliance with Section 73.3555.

KGTM(FM) and KQEZ(FM) contingently and contemporaneously propose minor modifications to exchange channels between the facilities. Since both stations must implement their requested construction permits simultaneously, both stations have been examined in the instant multiple ownership study.

Market #1:

The attached map entitled “Market #1 Numerator” depicts the principal community contours of those stations that are commonly attributable to the Applicant forming Market #1. The area shaded gray on this map constitutes the Composite Overlap Area of all stations attributable to the Applicant in Market #1. The area-shaded yellow constitutes the Mutual Overlap Area of the commonly attributable stations in Market #1.

The attached map entitled “Market #1 Denominator” depicts the principal community contour overlaps of the stations included in the Denominator listed below. Each Denominator station is a full-power radio station whose principal community contour overlaps or intersects the Composite Overlap Area of Market #1 and each station has its transmitter site located within 92 kilometers from the perimeter of the Numerator’s Mutual Overlap Area of the commonly attributable stations that define Market #1. Any stations which are commonly attributable with the Applicant and do not define Market #1 are not included in the Denominator. Commercial and noncommercial stations have been counted in the Denominator.

In a radio market with between 15 and 29 (inclusive) full-power, commercial and noncommercial radio stations, the Applicant may not be commonly attributable to more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM).

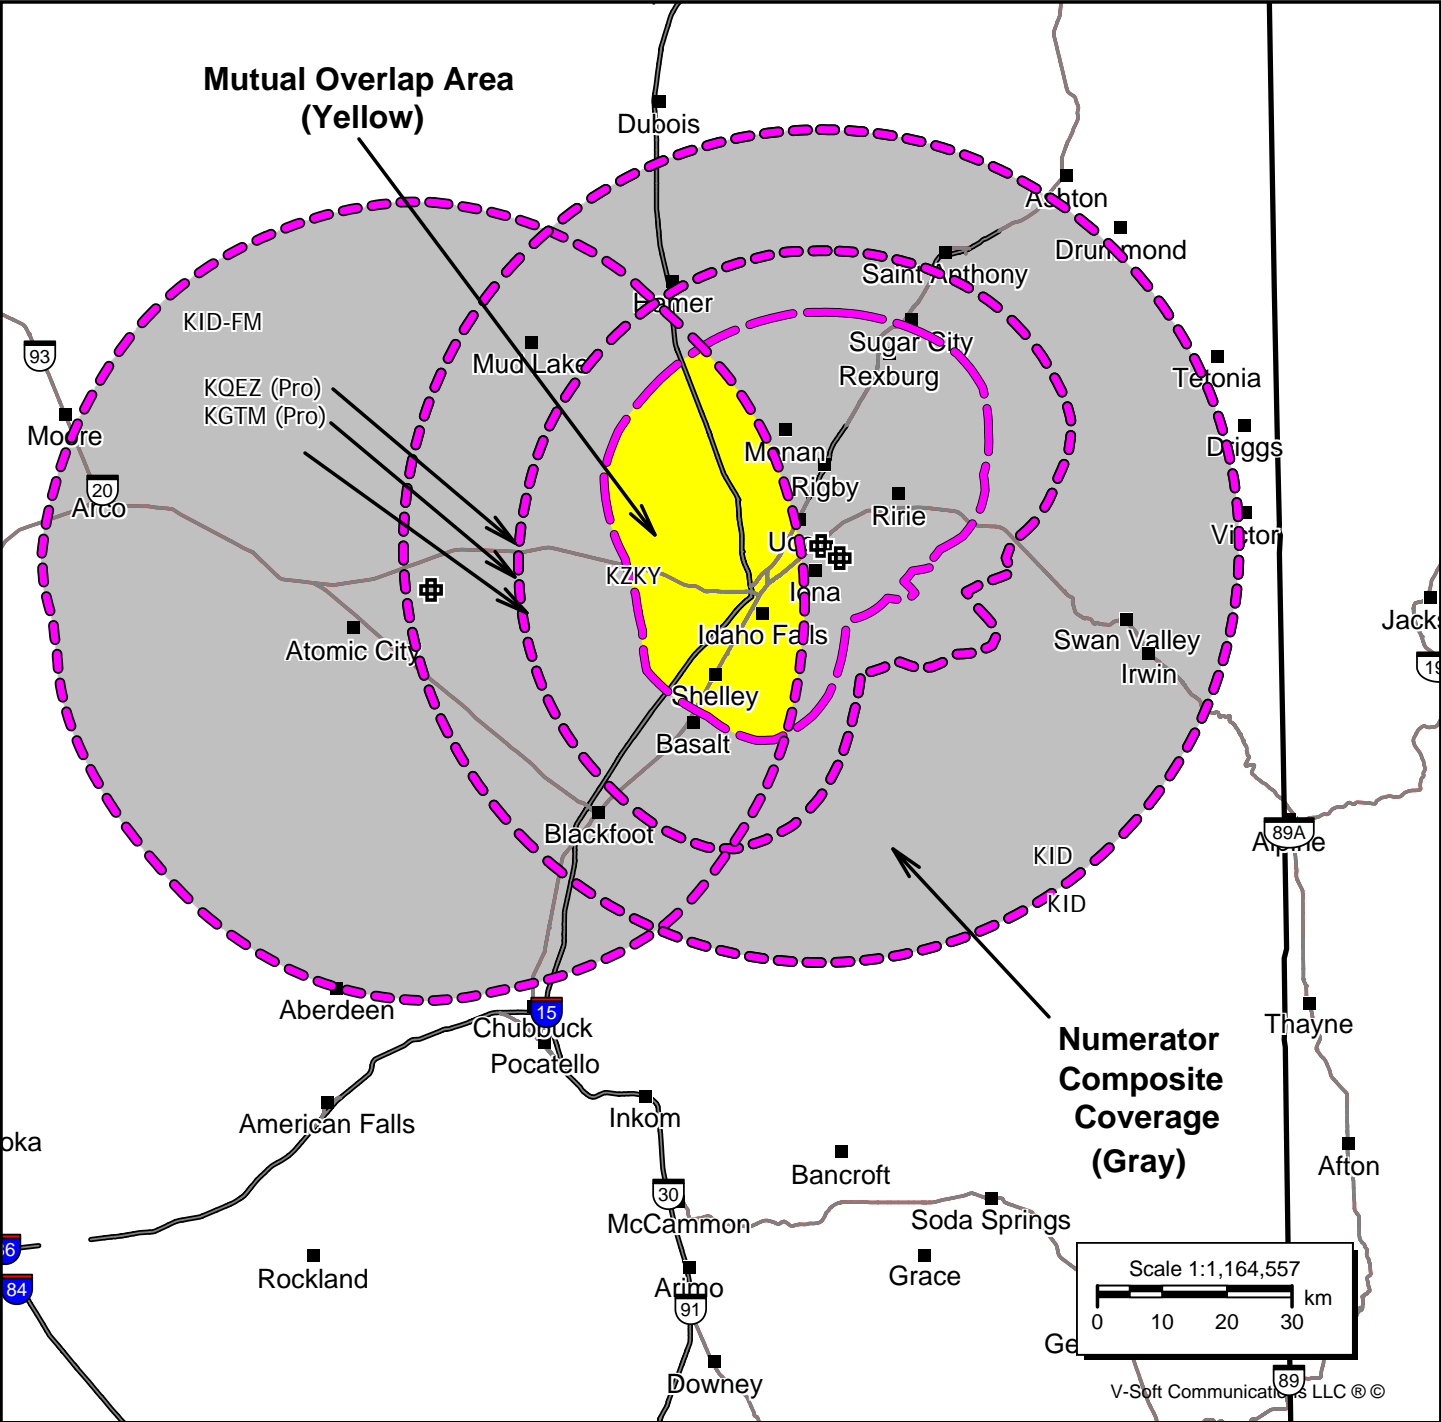

Therefore, the proposal complies with Section 73.3555 in Market #1.

Market #2:

The attached map entitled “Market #2 Numerator” depicts the principal community contours of those stations that are commonly attributable to the Applicant forming Market #2. The area shaded gray on this map constitutes the Composite Overlap Area of all stations attributable to the Applicant in Market #2. The area-shaded yellow constitutes the Mutual Overlap Area of the commonly attributable stations in Market #2.
