Re: 57 Theophilus Smith Road

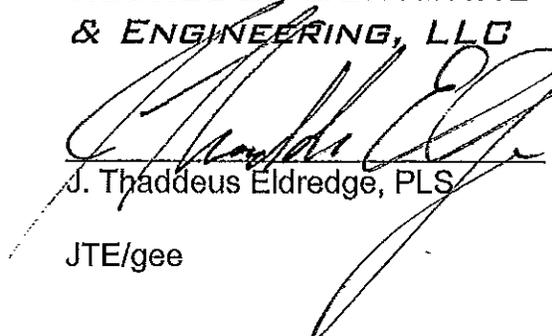

Dear Mr. Garabedian:

This is to certify that I, J. Thaddeus Eldredge, am a Professional Land Surveyor in and for the Commonwealth of Massachusetts, license number 46471 and on March 14, 2013, a survey was made by me for the installation of a two (2) bay directional FM antenna for radio station WFRQ, Harwich Port, Massachusetts. I found that the antenna was mounted to the tower and is oriented at a true azimuth of 105 degrees. This azimuth is within 0.1 degrees.

To the above statement, I do attest by my signature and seal.

Very truly yours,

**ELDREDGE SURVEYING
