

ADDENDUM 1 TO EXHIBIT 5

OTHER AUTHORIZATIONS AND ATTRIBUTABLE INTERESTS

In Exhibit 5, the assignor set forth the other broadcast stations attributable to the assignor. By this Addendum, the assignor submits updated and clarified information.

Pamela Daley, Senior Vice President - Corporate Business Development of General Electric Company, is a Trustee of the University of Pennsylvania, the licensee of noncommercial educational FM stations WXPB(FM), Philadelphia, Pennsylvania (FIN 68229) and WXPB(FM), Middletown, Pennsylvania (FIN 87834).

In Exhibit 5, the assignor described an attributable interest held by GE and GECC under the FCC's EDP rule in ACN's two small daily newspapers in the Dallas-Fort Worth, Texas market: the *Plano Star Courier* and the *McKinney Courier-Gazette* as a result of the decline in the value of ACN assets and the conversion of a portion of GECC's loans to ACN to equity. The assignor also noted that the Commission affords parties a reasonable time to come into compliance with any ownership restrictions made applicable as a result of a change in attributable status due to unforeseen circumstances. The assignor hereby reports that GECC no longer holds an attributable interest in ACN as its EDP interest has been reduced below the 33 percent benchmark. Accordingly, the assignor is now in compliance with the Commission's television/newspaper cross-ownership rule in the Dallas-Fort Worth, Texas market.
