Re: Langer Broadcasting Group, LLC ("Langer")  
WSRO(AM), Ashland, Massachusetts  
Facility Identification Number: 52398  
BP-20121005AAG (Construction Permit)  
BL-20130314ADK (License)

This is in reference to the above-captioned license application to cover Construction Permit BP-20121005AAG.

A preliminary engineering study of the application reveals that the nighttime antenna monitor sample current ratio of 0.67 for the tower #2 is less than the licensed value of 0.72 by more than  $\pm 5\%$  authorized tolerance, in violation of Section 73.62(a) of the Commission's rules.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide Langer an opportunity to file a request for Special Temporary Authority (STA) to operate with parameters at variance and to file an amendment with a complete partial proof in accordance with Section 73.154 of the Commission's rules. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Rules.

Sincerely,

Son Nguyen
