

APPLICATION FOR STATION LICENSE

RTG RADIO, LLC

WQPW (FM) RADIO STATION

CH 239C2 - 95.7 MHZ - 32.0 KW

VALDOSTA, GEORGIA

August 2007

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of RTG Radio, LLC ("RTG"), licensee of radio station WQPW, Channel 239C2, Valdosta, Georgia. RTG has an outstanding permit to correct data regarding the operating WQPW facilities on Channel 239C2 (BPH-20070312AAU). RTG herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WQPW transmitter is attached as Exhibit A.

There are three special operating conditions indicated on the permit. The first condition states that the permit was granted pursuant to the grandfathering provisions of Note 4 to §73.3555 of the rules. RTG acknowledges this condition. The second condition states that WQPW is considered a contour protected station pursuant to §73.215 of the rules. RTG acknowledges this condition.

The final condition requires RTG to reduce the power of WQPW or cease operation, as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. RTG will comply with this requirement. Based on the foregoing, it is believed that WQPW is operating in compliance with the Commission's rules and that all conditions have been met.
