Mr. Jon Banks, Consultant
Pitkin County Translator Department
530 E. Main Street | Garden Level
Aspen, CO 81611

**Ref: K222AN, Basalt, Colorado
BPFT-20130313ACY**

Dear Mr. Banks,

Thank you for your brief and site drawing describing the proposed installation of a transmitting antenna for translator station K222AN at the same site as existing directional antennas for translators K211EX and K271BK.

Based on your information it appears there is sufficient vertical and horizontal spacing between these installations to prevent any significant effect to the directional radiation characteristics of the existing translator installations.

This opinion carries no performance guarantee and is based solely on the data provided by Pitkin County and the practical experience of our sales engineers. It is by no means a comprehensive analysis and Kathrein USA recommends Pitkin County to engage the services of a qualified communications consulting firm for a definitive evaluation. The furnished data has not been verified by Kathrein USA for completeness or accuracy.

If you need further assistance, please do not hesitate to contact me.

Best regards,

Michael Wm. Bach, Sales Engineer
