

Technical Statement
Application for Construction Permit
W256BI Red Hook , NY
February, 2009

This technical statement is prepared by Charles Williamson, president of Digital Radio Engineering, Inc., for WillPower Radio, LLC, licensee of W256BI at Red Hook, NY. This application proposes three changes; (1) a change in transmitter site, (2) a change in the transmit antenna and (3) a change in power.

The allocation study shows one overlap condition to third adjacent WCTW at Catskill, NY. A waiver request is included with this application, along with a contour map showing the interfering contour, and how no population is affected.

This facility is a fill-in translator. As such, power does not exceed 250 watts.
