MULTIPLE OWNERSHIP ANALYSIS

Transferee is in compliance with Section 73.3555(b)(i) of the Commission's rules. According to data generated for the Puerto Rico DMA by Nielsen Media Research for March 1-31, 2014, neither WMEI or WOST is rated among the top four stations in the DMA. While Puerto Rico is not an official Nielsen DMA, the Commission in previous cases has treated the entire Island as such. See *Televiscentro of Puerto Rico, LLC*, 22 FCC Rcd 2203, DA 07-500 (rel. Feb. 2, 2007): "Nielsen has not developed DMA markets for the island of Puerto Rico. However, in past television duopoly cases involving stations in different parts of Puerto Rico, we have implicitly treated the entire island as a single television market." [FN: *Paxson San Juan, Inc.*, 16 FCC Rcd 14139 (2001); *Milton S. Maltz*, 13 FCC Rcd 15527 (1998); and *JEM Communications, Inc.*, 9 FCC Rcd 4874 (1994).]

Appended to the attached Multiple Ownership Analysis are two coverage maps. The first depicts the contours of Station WMEI and WOST. The second map depicts the same contours with the addition of the transmitter site for the first station listed for each licensee name identified in the Multiple Ownership Analysis. Each of the 23 other "independent voice" transmitter sites is located inside the WMEI service contour.

CMCG Puerto Rico License LLC is the licensee of two TV stations, one Class A LPTV station and one LPTV station in Puerto Rico. Its ownership of the LPTV stations does not trigger the multiple ownership rule.

Common ownership of the two TV stations is believed consistent with Section 73.3555(b)(1)(ii) of the Commission's rules as at least 8 independently owned and operated, full power, commercial and non-commercial TV stations remain post transfer in the Puerto Rico DMA. Listed below, by licensee, are the full service TV facilities currently licensed in Puerto Rico based on the FCC's CDBS data base..
