Request to Dismiss

We are requesting this application be dismissed so our STA can be granted.

The above captioned application is a major change, not a minor change, pursuant to FCC rule 73.3572(2) which states:

(2) In the case of Class A TV stations authorized under subpart J of this part and low power TV, TV translator, and TV booster stations authorized under part 74 of this chapter, a major change is any change in:

(ii) Transmitting antenna location where the protected contour resulting from the change is not predicted to overlap any portion of the protected contour based on the station's authorized facilities.

The above captioned application is 222.58 Km away from its licensed location and there is no overlap of any portion of it's protected contour. Even if the application was filed before this rule went into place, the rule still applies and an amendment should have been filed waiving this rule. It was not.

The above captioned application should be dismissed based on it being a major change pursuant to 73.3572(2).
