Re: Holladay Broadcasting of Louisiana, LLC
KMLB(AM), Monroe, LA
Facility Identification Number: 35249
File Number: BP-20081008AHT

Dear Applicant:

The staff has under consideration the above-captioned application for a modification of AM broadcast station KMLB, Monroe, Louisiana.

An engineering review of the application reveals that the proposed nighttime operation would increase skywave interference to co-channel Class A Mexican station XEWA, San Luis Potosi, SL, Mexico in violation of US/Mexican AM Broadcasting Agreement. Accordingly, in order to be grantable, the nighttime proposal must be amended to eliminate interference to XEWA.

Further action on the subject application will be withheld for a period of thirty days from the date of this letter to provide you an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568(b). Please note that any amendment must be submitted in the same manner as the original application. For questions concerning foreign stations protections, please contact George Fehlner of FCC International Bureau at (202) 418-2197.

Sincerely,

Son Nguyen
