Installation Certification and Qualifications of Supervising Engineer

August 29, 2005

Qualifications of: Gregg Andrew Garcia

Gregg Andrew Garcia has been in the Broadcast Engineering field since 1978. He has been chief engineer of many radio stations since 1985. He has supervised or assisted in the repair, installation and redesign of AM and FM transmission facilities since 1987 and most recently for radio stations KCMT, KTKT, KNST and KOAZ.

I Gregg Andrew Garcia certify that the antenna, transmission line, transmitter and all associated transmission equipment has been installed according standard engineering practices and that the installation meets all requirements as specified in the construction permit except that the antenna height was lowered to 483.69 ft (center of radiation) in order to clear an existing antenna on the tower.
