

**APPLICATION FOR MODIFICATION OF CONSTRUCTION PERMIT  
BLUESTONE LICENSE HOLDINGS, INC.  
KAEF-DT, ARCATA, CALIFORNIA**

**Interference and Coverage Considerations**

The present application for modification of construction permit involves a site relocation of less than 100 meters, an increase in antenna height above average terrain of 37 meters and a decrease in maximum effective radiated power to 50 kilowatts from the effective radiated power of 1000 kilowatts authorized in BMPCDT-20000427ABP.

All presently proposed potentially interfering contours and coverage contours will fall within those authorized in the referenced modified construction permit.
