Dear Mr. Klein:

This letter is to inform you that it is our opinion that, as proposed, with the use of our Nicom Antenna Model BKG-1P, the operation of station K288EX, FCC File Number BMPFT-20061120AAP, will not cause any distortion to the radiated pattern of existing station K260AL, FCC File Number BLFT-20061201AML, also using our model BKG-1P antenna. This opinion is based on the fact that the existing antenna of station K260AL is spaced considerably more than two wavelengths distance from the proposed antenna for station K288EX.

Sincerely,
