

EXHIBIT 18-3

Television Multiple Ownership

CCC announced publicly in November 2006 that it had initiated the process of selling all of its television stations, and that process is continuing.¹ Multiple ownership information for CCC's present television holdings is nevertheless provided below.

Television Duopolies

CCC currently holds six television duopolies.² As currently in effect, Section 73.3555(b) of the Commission's rules permits common ownership of two television stations in the same Nielsen Designated Market Area if:

- (1) at least eight independently owned and operating commercial and/or noncommercial television stations, the Grade B contours of which overlap with the Grade B contour of at least one station in the proposed combination, will remain post-merger in the DMA; and
- (2) at least one of the stations to be commonly owned is not among the top four stations in the market, ranked according to audience share by Nielsen or a comparable rating service at the time the application is filed.

¹ See CCC Press release dated November 16, 2006 (announcing, among other things, plans to sell the entire CCC television group).

² CCC owns WHP-TV, Harrisburg, PA in the Harrisburg-Lancaster-Lebanon-York, PA DMA and KSAS-TV, Wichita, KS in the Wichita, KS DMA. Pursuant to Local Marketing Agreements ("LMA"), CCC also provides programming to WLYH-TV, Lancaster, PA and KMTW(TV), Hutchinson, KS, which are in the Harrisburg-Lancaster-Lebanon-York, PA DMA and the Wichita, KS DMA, respectively. CCC entered into both LMAs prior to the November 5, 1996 grandfathering cut-off date. FCC policy provided that these LMAs may continue in full force and effect, and be freely transferable, until completion of the Commission's biennial review in 2004. See *Review of the Commission's Regulations Governing Television Broadcasting, Television Satellite Stations Review of Policy and Rules*, Report and Order, 14 FCC Rcd 12903 (1999)(*Television Ownership Order*). That proceeding is now the 2006 quadrennial proceeding. See *Further Notice of Proposed Rule Making, Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, MB Docket No. 06-121 *et al.*, 21 FCC Rcd 8834 (2006).

Commission policy prohibits the transfer of a duopoly unless it complies with the agency's rule or waiver policies at the time of transfer.³ Table 2 below, and the attachments thereto, demonstrate that all of CCC's combinations comply with the agency's television duopoly limitations. For each duopoly, Table 2 lists the relevant Nielsen DMA, the television stations involved in the combination, the number of independently owned and operating commercial and noncommercial television stations that remain in the relevant DMA, and the Audience Share of each station. In support of this information, Attachment A contains an excerpt from the November 2006 Nielsen Station Index ("NSI") showing the television stations in the relevant DMA, followed by a statement from the BIA's Media Access Pro database, dated December 6, 2006, showing the licensees of each of these stations. Attachment B includes contour maps demonstrating which of the stations in the relevant DMA have Grade B contours that overlap the Grade B contours of one or both of the stations in the duopoly combination. Lastly, Attachment C contains November 2006 NSI excerpts showing Sunday-Saturday, 9:00 a.m. -12:00 midnight audience shares for stations in the relevant DMA.

As Table 2 and Attachments A, B and C show, Transferee may own all of these television station combinations under the Commission's television duopoly rule currently in effect.

³ *Television Ownership Order* at 12933.

Request for Continuing Satellite Exemption for KMBC(TV) and KTCW(TV)

I. Introduction.

By this application, Transferees respectfully request a continuation of CCC's longstanding waiver of the FCC's local television ownership rules to permit continued operation of KMCB(TV), Coos Bay, Oregon and KTCW(TV), Roseburg, Oregon, as satellites of KMTR(TV), Eugene, Oregon, pursuant to Note 5 of Section 73.3555 of the Commission's Rules.⁴ As recently as May 29, 2002, the Commission granted a continuing satellite exemption in connection with the application for transfer of control of the Ackerley Group, Inc. to CCC.⁵ None of the essential facts underlying the existing operation of KMCB(TV) and KTCW(TV) as satellites are changed by the instant application.

A continuation of the long-standing waiver under the satellite exemption is warranted here because, although the Grade B contours of KMCB(TV) and KTCW(TV) overlap the Grade B contour of KMTR(TV), there is no overlap between the three stations' city grade contours.⁶ In addition, continuation of the satellite relationship will allow television service to underserved areas, and – as the Commission has previously concluded and as demonstrated below – there are no alternative operators who would be able or willing to operate KMCB(TV) or KTCW(TV) as full-service television stations.

⁴ See 47 C.F.R. § 73.3555, Note 5 (2005).

⁵ *Shareholders of the Ackerley Group, Inc.*, Memorandum Opinion & Order, 17 FCC Rcd 10828, 10843-10844 (2002) (*Ackerley*). Ackerley Broadcasting Operations, LLC, the licensee of KMCB(TV), KTCW(TV), and KMTR(TV), is directly owned and controlled by CCC.

⁶ See Engineering Statement, Attachment D.

II. Background of Satellite Policy.

The Commission's current satellite policy establishes two tests for determining whether a station qualifies for satellite status.⁷ Under the first test, the Commission presumes that an applicant qualifies for satellite status if the applicant can demonstrate (a) that the city grade contours of the commonly-owned stations do not overlap, (b) that the proposed satellite provides service to an underserved area, and (c) that no alternative operator is able or ready to purchase and to operate the proposed satellite as a full-service station.⁸ If an applicant cannot qualify under this presumptive waiver test, then the Commission evaluates the satellite waiver using an *ad hoc* approach to determine whether other compelling circumstances warrant grant of satellite status.⁹ For the reasons set forth below, KMCB(TV) and KTCW(TV) qualify for satellite status under the presumptive waiver test. Thus, the Commission may authorize continuation of satellite status for KMCB(TV) and KTCW(TV) without the need to consider other compelling circumstances that would also warrant the grant.

III. KMCB(TV) and KTCW(TV) Qualify for Satellite Status Under the FCC's Presumptive Waiver Satellite Policy.

Operation of KMCB(TV) and KTCW(TV) as satellites of KMTR(TV) satisfies each element of the FCC's presumptive test for satellite status. The stations' city grade contours do not overlap. Coos Bay and Roseburg, the communities of license of

⁷ See 47 C.F.R. § 73.3555, Note 5 (1998); *Television Ownership Order*; *Television Satellite Stations*, 6 FCC Rcd 4212, 4213-14 (1991) (*Satellite Order*), *on reconsideration*, Second Further Notice of Proposed Rulemaking, 6 FCC Rcd 5010 (1991), *on further reconsideration*, Further Notice of Proposed Rule Making, 10 FCC Rcd 3524 (1995), *on further reconsideration*, Second Further Notice of Proposed Rulemaking, 11 FCC Rcd 21655 (1996).

⁸ *Satellite Order*, 6 FCC Rcd at 4213-14.

⁹ *Id.* at 4214.

KMCB(TV) and KTCW(TV), are underserved areas. Moreover, the Commission has previously determined that operation of KMCB(TV) and KTCW(TV) as full-service stations is not economically feasible. The circumstances making the operation of KMCB(TV) and KTCW(TV) as full-service stations infeasible have not changed significantly since the Commission's last grant of continuing satellite authority for these stations. Based on satisfaction of these three criteria, continuation of CCC's present satellite operation of KMCB(TV) and KTCW(TV) is warranted.¹⁰

A. No City Grade Overlap.

KMCB(TV) operates on Channel 23 and is licensed to Coos Bay, Oregon. KTCW(TV) operates on Channel 46 and is licensed to Roseburg, Oregon. KMTR(TV) operates on Channel 16 and is licensed to Eugene, Oregon. All three stations are assigned to the Eugene, Oregon Designated Market Area ("DMA"), the nation's 121st largest DMA. As demonstrated in the Engineering Statement, while KMCB(TV)'s and KTCW(TV)'s Grade B contours overlap the Grade B contour of KMTR(TV), there is no overlap of the three stations' city grade contours.¹¹ Thus, the first criterion of the FCC's presumptive waiver test is satisfied.

B. Underserved Area.

An applicant may show that a proposed satellite serves an underserved area by demonstrating (1) that there are two or fewer full-service stations licensed to the station's community of license, or (2) that 25% or more of the area within the satellite's Grade B contour, but outside the parent station's Grade B contour, is served by four or

¹⁰ If the Commission should determine for some reason that the presumptive waiver test is not satisfied here, Transferees request that the Commission evaluate this waiver request under the *ad hoc* approach.

¹¹ See Engineering Statement, Attachment D.

fewer services.¹² This proposal meets the second criterion of the FCC's presumptive waiver test because KMCB(TV) and KTCW(TV) both serve underserved areas.

Only one other full service television station is licensed to Coos Bay, Oregon, and only two other full-service television stations are licensed to Roseburg, Oregon.¹³ Of these three stations, two, KCBY-TV, licensed to Coos Bay, and KPIC(TV), licensed to Roseburg, are operated as satellites of a Eugene, Oregon television station. Accordingly, the second criterion of the presumptive test for continuation of satellite status is satisfied.

C. Inability to Sustain Full-Service Operations.

The Commission has now confirmed on several occasions that no alternative operator is available to operate KMCB(TV) or KTCW(TV) as a full-service station.¹⁴ On at least four occasions, the Commission has recognized that the economic prospects for any such station in Coos Bay or Roseburg are extremely poor.¹⁵

Indeed, of the three other television stations licensed to Coos Bay and Roseburg, two are also operated as satellites of a Eugene, Oregon television station, in an arrangement very similar to the one proposed here. Thus, the FCC has recognized repeatedly that the communities of Coos Bay and Roseburg simply would not support the operation of KMCB(TV) or KTCW(TV) as stand-alone stations. Both KMCB(TV) and KTCW(TV) operate at relatively low power levels. Due to these constraints, as well as the rugged terrain of the area surrounding Coos Bay and Roseburg, both stations have

¹² *Satellite Order*, 6 FCC Rcd at 4215.

¹³ KCBY-TV is licensed to Coos Bay, Oregon; KPIC(TV) and KTVC(TV) are licensed to Roseburg, Oregon. Information determined by a search of the Commission's CDBS database.

¹⁴ *Ackerley*, 17 FCC Rcd at 10844, *citing* two previous grants of satellite waiver.

¹⁵ *Id.*; *see also*, *Retlaw Broadcasting of Eugene, L.L.C.*, Memorandum Opinion and Order, 14 FCC Rcd 6667 (1999) (*Retlaw*).

service areas covering only a very small portion of the Eugene DMA, the 121st-ranked television market. Neither station's signal reaches Eugene, the economic and population center of the market. Even if the stations reached a larger portion of the market, it is unlikely that they would garner network affiliation agreements. ABC, CBS, NBC, Fox, CW, and MyNetworkTV affiliations have already been granted and are therefore now unavailable in the market. If they are not allowed to continue operating as satellites, KMCB(TV) and KTCW(TV) would be forced to face the difficult task of competing with other stations in the market as independents, making it extremely difficult for them to generate sufficient advertising revenue to survive.

In connection with this request CobbCorp, LLC, a broadcast brokerage and appraisal firm, has assessed the economic viability of operating KMCB(TV) and KTCW(TV) as stand-alone stations.¹⁶ As demonstrated in the attached statement, Mr. Cobb concluded that operation of either KMCB(TV) or KTCW(TV) as a stand-alone full service station would be financially unsuccessful and economically unfeasible. Mr. Cobb's statement demonstrates that no alternative operator would be interested in, or able to, operate the stations on a stand-alone basis.

Only by confirming authority for continued operation of KMCB(TV) and KTCW(TV) as satellites of KMTR(TV) can the Commission enable KMCB(TV) and KTCW(TV) to maintain their economic viability and continue to provide an outlet for local news and community affairs to Coos Bay, Roseburg, and the surrounding underserved areas within their coverage areas. The third criteria of the FCC's presumptive waiver standard is thereby satisfied.

¹⁶ See Statement of Brian E. Cobb, Attachment E.

E. Continuation of Satellite Status for KMCB(TV) and KTCW(TV) is Consistent with Commission Precedent.

In *Retlaw Broadcasting of Eugene, L.L.C.*, the Commission also approved the assignment of the licenses of a parent/satellite combination involving the exact same communities at issue in the instant application and granted continued satellite authority after finding that the proposed assignee had shown that there was no City Grade overlap between the parent and the satellite, that the satellites were the only full-power stand-alone television stations in their respective communities, and that the satellites were not capable of being operated as independent full-service stations.¹⁷ As in the present case, the proposed assignee submitted a declaration from a media consultant stating that neither proposed satellite has a reasonable likelihood of finding an alternative operator willing and able to operate the satellite as a “financially viable full-service, stand-alone facility.”¹⁸

In *Precht Communications, Inc.*, the FCC, under an *ad hoc* analysis, permitted the continued satellite operation of a station having City Grade overlap with its parent station because the satellite station would have had to compete against ABC, CBS and NBC network affiliates as a stand-alone station with a disadvantaged signal that only covered a small part of a small revenue market.¹⁹ Despite the fact that this satellite waiver request failed the FCC’s presumptive waiver test, the Commission found “other compelling circumstances” warranted continued satellite status. In particular the Commission was persuaded by the opinion of assignee’s expert consultant that “the

¹⁷ See *Retlaw* at 6676-8, ¶ 20, 27

¹⁸ See *id.* at 6676.

¹⁹ *Precht Communications, Inc.*, 13 FCC Rcd 8659 (1998).

level of competition, the sparse market revenues, the station's disadvantaged signal and the unusually high programming/operating expenses associated with" the station would preclude a knowledgeable broadcaster from attempting to operate the station on a full-service stand-alone basis.²⁰

IV. Conclusion.

As demonstrated above, the proposed continuation of satellite status satisfies all three prongs of the FCC's presumptive waiver test and grant of the instant waiver request is consistent with Commission precedent. The Commission found that the public interest would be served when it authorized CCC's acquisition of KMCB(TV) and KTCW(TV) and its operation of the stations as satellites of commonly-owned station KMTR(TV).

Accordingly, the public interest would again be served by the Commission's authorization of the continued operation of KMCB(TV) and KTCW(TV) as satellites of KMTR(TV) in connection with the transfer of control of CCC. As the attached Statement of Brian E. Cobb demonstrates, and as the Commission has previously recognized on numerous occasions, operating KMCB(TV) and KTCW(TV) as full-service independent stations in the Eugene, Oregon market is simply not feasible, and the prospects for economic viability as stand-alone stations are not likely to improve. Given KMCB(TV) and KTCW(TV)'s limited coverage areas and poor prospects for financial success except as satellites, the only way the stations can survive is as satellites of a full-service station such as KMTR(TV), which has the necessary financial and programming resources. Based upon the foregoing, Transferees respectfully request a waiver of the local television ownership rules to permit the continued operation of KMCB(TV) and

²⁰ *Id.* at 8664.

KTCW(TV) as satellites of commonly-owned KMTR(TV) following the closing of the transfer of control of CCC proposed in this application.

Radio/Television Cross-Ownership

Currently, CCC holds twenty one radio/television cross-ownership combinations.

Common ownership of radio and television stations in the same market triggers the rule when either:

- (1) the Grade A contour of the television station encompasses the entire community of license of the radio station; or
- (2) the predicted or measured 2 mV/m contour of the AM station (1 mV/m contour for FM) encompasses the entire community of license of the television station.

Where such contour overlap exists, an entity may own varying combinations of stations depending upon the number of independent media voices in the market.

Specifically, an entity may own, operate, or control:

- (1) up to 2 commercial television stations and 1 radio station, regardless of the number of media voices in the market;
- (2) up to 2 commercial television stations and 4 radio stations, if at least 10 independently owned media voices would remain in the market;
- (3) up to 2 commercial television stations and 6 radio stations (or 1 commercial television station and 7 radio stations, to the extent that the entity could have owned the second television station), if at least 20 independently owned media voices would remain in the market.

Generally, under the radio/TV cross-ownership rules the FCC does not count radio stations located in one Arbitron market toward the limits on the number of radio stations a party may own in another Arbitron market, even when the radio stations in the different markets fall within the Grade A contour of a commonly owned TV station.²¹

The Commission does, however, count radio stations assigned to one Arbitron radio

²¹ Memorandum Opinion and Second Order on Reconsideration, *Review of the Commission's Regulations Governing Television Broadcasting*, 16 FCC Rcd 1067, ¶ 41 (2001).

market toward an entity's ownership limits in a separate Arbitron market when the contour of the radio station triggers the rule.

Regarding the voice count tests set forth above, the Commission has stated that "voices" include:

- (1) all independently owned and operated full-power television stations (commercial and noncommercial) that are licensed to a community in the DMA in which the community of license of the television station in question is located;
- (2) all independently owned and operated radio stations (commercial and noncommercial) that are licensed to a community within the radio metro market (as defined by Arbitron) in which the television station is located, or the radio metro market in which the radio station(s) are located;²²
- (3) independently owned and operated radio stations that are licensed to a community outside the radio metro market that have a reportable ratings share within the metro market;
- (4) English-language newspapers that are published at least four days a week within the DMA in which the television station's community of license is located and that have a circulation exceeding 5% of the households in the DMA; and
- (5) cable.²³

Where a resulting combination contains stations in more than one Arbitron radio metro market, the voice count prong of the radio/television cross-ownership rule must be satisfied in each market.²⁴

²² Pursuant to § 73.3555(c)(3)(ii)(C), in areas where there is no radio metro market a party may count the radio stations present in an area that would be the functional equivalent of a radio market in order to determine how many media voices would remain in the market. To create "functionally equivalent" markets for this showing, the Transferee has counted those geographically proximate radio stations with a principal community contour that overlaps or intersects with the principal community contours of its owned stations.

²³ If cable is generally available, it is counted as one voice, regardless of the number of individual cable systems operating in the DMA.

²⁴ *Television Ownership Order* at 12952 n.173.

As discussed further below, Table 3 provides compliance information about CCC's radio/television cross-ownership combinations involving television stations in twenty-one different DMAs. The Table shows that fifteen of the existing radio/TV combinations comply with the ownership limitations. Of the non-compliant combinations, CCC holds those in Binghamton, New York, Syracuse, New York and Santa Maria, California, under a temporary waiver initially granted in connection with its merger with The Ackerley Group, Inc.²⁵ Additionally, it holds the combinations in Albany, NY, Cincinnati, OH and Harrisburg, PA pursuant to temporary waivers conditioned on the outcome of the 2006 Quadrennial ownership proceeding.²⁶ Pursuant to the policy announced in the *Television Ownership Order*, the FCC prohibits transfer of any radio/TV cross-ownership combination that does not comply with the rule at the time of transfer.²⁷ Transferee reiterates that it does not seek waiver of this rule to permit continued ownership of the six non-compliant radio/TV combinations. Instead, prior to,

²⁵ See *Ackerley, supra*, 17 FCC Rcd at 10835. The temporary twelve-month waiver commenced upon consummation of the merger on June 14, 2002. Initially, it included radio/TV combinations in Utica and Rochester, NY. On May 14, 2003, CCC filed a request that the temporary waiver be extended for a six-month period following Commission action on the request, which remains pending. See Letter from Gregory Masters to Marlene H. Dortch, Secretary (dated April 5, 2004). A year later, CCC sold the Utica television station, thereby satisfying the divestiture requirement with respect to that ownership combination. See Letter from Gregory Masters to Marlene H. Dortch, Secretary (dated May 14, 2003). With respect to Rochester, CCC reported the combination as non-compliant because at the time it involved one television and seven radio stations in a market having fewer than eight independent television voices. Because the WHAM-TV contour does not encompass the WSNP(FM) community of license of South Bristol Township, NY, however, the combination now involves one television and six radio stations. See Rochester DMA Contour Map, Attachment F. Removing WSNP(FM) from the combination renders it a compliant one television/six radio station combination.

²⁶ CCC holds these combinations pursuant to waivers conditioned on the outcome of the biennial (now quadrennial) review. *Shareholders of AMFM, Inc.*, 15 FCC Rcd 16062, at 16074 n28 (Cincinnati and Harrisburg) and 16075 (Albany) (2000) (*AMFM*); citing *J. Albert Dame*, DA 99-1188 (Mass Med. Bur. 1999); *Shareholders of Jacor Communications, Inc.*, 14 FCC Rcd at 6867. Because these radio-television combinations do not comply with the revised cross-ownership rules, pursuant to the Commission's decision in the *Television Ownership Order*, the waivers will be extended subject to the outcome of the Commission's 2004 Biennial Review. *Television Ownership Order, supra*, at 12957-58; *AMFM, supra*, at 16075.

²⁷ *Television Ownership Order* at 12933.

or simultaneous with this transaction, CCC will seek FCC consent to divest of the necessary stations so that, upon consummation of the instant transaction all ownership combinations will comply with the ownership limitations.

Column A of Table 3 list the stations involved in each radio/TV cross-ownership combination, along with the name of the Nielsen DMA to which the television station or stations belong. Contour maps included in Attachment F (arranged alphabetically by DMA name) demonstrate that the Grade A contour(s) of the CCC TV station(s) involved encompass the communities of license of each of the radio stations in the listed combination, and/or that the pertinent contours of the radio stations in the combination encompass the respective communities of license of the television station(s). Next, for each combination, Column B indicates the number of independently owned voices in the relevant market. Where the total number of voices in a market exceeds the number needed to justify the ownership combination, the count is provided as “10+” or “20+.” Attachment G (arranged alphabetically by DMA name) contains the supporting voice count data. Finally, Column C states whether the combination complies with the ownership limitations.

Table 3.

| DMA Name CC TV/Radio Station Combination(s) (A) | Voices (B) | Complies with Rules? Yes/No (C) |
|--|-----------------------|--|
| <u>Albany-Schenectady-Troy, NY</u> WXXA-TV, Albany, NY WGY-AM, Schenectady WKKF(FM), Balston Spa WTRY-FM, Rotterdam WPYX-FM, Albany WRVE-FM, Schenectady WHRL-FM, Albany WOFX-AM, Troy | 20+ | No |
| <u>Hudson-Catskill, NY</u> <i>(Functionally Equivalent Market)²⁸</i> WXXA-TV, Albany, NY WHUC(AM), Hudson, NY WCTW-FM, Catskill, NY WZCR(FM), Hudson, NY | 10+ | Yes |
| <u>Bakersfield, CA</u> KGET-TV, Bakersfield, CA KBFP(AM), Bakersfield, CA KBFP-FM, Delano, CA KBKO-FM, Bakersfield, CA KDFO-FM, Delano, CA KHTY(AM), Bakersfield, CA KRAB(FM), Greenacres, CA | 20+ | Yes |
| <u>Binghamton, NY</u> WIVT(TV), Binghamton, NY WENE(AM), Endicott, NY WINR(AM), Binghamton, NY WBBI(FM), Endwell, NY WKGB-FM, Conklin, NY WMRV-FM, Endicott, NY WMXW(FM), Vestal, NY | 15 | No |

²⁸ WHUC(AM) and WZCR(FM), Hudson and WCTW-FM, Catskill, NY do not belong to a defined Arbitron radio metro market and the relevant contours of these stations do not encompass Albany. These stations are thus considered to be in a different radio/TV combination as the stations in the Albany-Schenectady-Troy Arbitron radio market. Because they are not in a defined radio metro market, however, a functionally equivalent Hudson-Catskill radio market has been created.

| | | |
|--|-----|-----|
| <u>Cincinnati, OH</u> WKRC-TV, Cincinnati, OH WCKY(AM), Cincinnati, OH WEBN(FM), Cincinnati, OH WKFS(FM), Milford, OH WKRC(AM), Cincinnati, OH WLW(AM), Cincinnati, OH WOFX-FM, Cincinnati, OH WSAI(AM), Cincinnati, OH WVMX(FM), Cincinnati, OH | 20+ | No |
| <u>Eugene-Springfield, OR</u> ²⁹ KMTR(TV), Eugene, OR KPNW(AM), Eugene, OR KODZ(FM), Eugene, OR KDUK-FM, Florence, OR KFLY(FM), Corvallis, OR KLO-FM, Corvallis, OR KRKT-Fm, Albany, OR <i>Albany-Corvallis</i> <i>(Functionally Equivalent Market)</i> KMTR(TV), Eugene, OR KEJO(FM), Corvallis, OR KLOO(AM), Corvallis, OR KLOO-FM, Corvallis, OR KRKT-FM, Albany, OR | 20 | Yes |

²⁹ The TV/radio combinations in this area involve KMTR-TV, Eugene, Oregon, and eight radio stations divided among one two separate radio markets. In the Eugene-Springfield, Oregon Arbitron radio market CCC owns KPNW(AM), KODZ(FM), Eugene, KDUK-FM, Florence and KFLY(FM), Corvallis. It also owns the following four radio stations which are not assigned to any Arbitron market: KEJO, KLOO(AM) and KLOO-FM, Corvallis and KRKT-FM, Albany. As demonstrated in the Eugene-Springfield, OR map included in Attachment F, the Grade A contour of KMTR-TV encompasses the communities of license of Eugene and Corvallis. Additionally, the relevant contours of all four stations in the Eugene-Springfield Arbitron market encompass Eugene, as does the relevant contours of KLOO-FM, Corvallis and KRKT-FM, Albany. Thus, two separate TV/radio combinations are created. The first includes KMTR-TV and the four stations in the Eugene-Springfield, OR Arbitron market (KPNW(AM), KODZ(FM), KDUK-FM and KFLY(FM)) plus KLOO-FM and KRKT-FM because the 1m V/m contour of these encompass Eugene, triggering the cross-ownership rule independently of the TV station. The second combination consists of KMTR and the following four stations not assigned to any Arbitron market: KEJO, KLOO(AM), KLOO-FM and KRKT-FM. Because these stations are not in a defined radio metro market, a functionally equivalent Albany-Corvallis radio market has been created. Included in this market are those geographically proximate radio stations with a principal community contour that overlaps or intersects with the principal community contours of the CCC-owned stations.

| | | |
|---|-----|--|
| <u>Fairbanks, AK</u> ³⁰ KTVF(TV), Fairbanks, AK KAKQ-FM, Fairbanks, AK KFBX(AM), Fairbanks, AK KIAK-FM, Fairbanks, AK KKED(FM), Fairbanks, AK | 20+ | Yes |
| <u>Fresno-Visalia, CA</u> KGPE(TV), Fresno, CA KALZ(FM), Fowler, CA KCBL(AM), Fresno, CA KHGE(FM), Fresno, CA KRDU(AM), Dinuba, CA KRZR(FM), Hanford, CA KSOE(FM), Dinuba, CA | 20+ | Yes |
| <u>Harrisburg-Lancaster-Lebanon-York, PA</u> ³¹ WHP-TV, Harrisburg, PA WLYH-TV, Lancaster, PA (LMA) WHKF-FM, Harrisburg, PA WKBO(AM), Harrisburg, PA WTKT(AM), Harrisburg, PA WHP(AM), Harrisburg, PA WRBT(FM), Harrisburg, PA WRVV(FM), Harrisburg, PA WLAN(AM), Lancaster, PA WLAN-FM, Lancaster, PA | 20+ | No Market has fewer than eight independent television voices. |

³⁰ Transferee has created the functional equivalent of a radio market for the Fairbanks area because the Fairbanks radio stations do not belong to a defined Arbitron radio metro market. To do this, it has counted those geographically proximate radio stations with a principal community contour that overlaps or intersects with the principal community contours of the CCC stations.

³¹ In response to a staff request at the time it acquired WBLJ-FM, Shamokin, PA CCC noted that WLYH-TV encompasses Shamokin. The WBLJ-FM contour, however, does not encompass Lancaster. For this reason, and because the station is in the Sunbury-Selinsgrove-Lewisburg, PA Arbitron Market and not in the same radio markets as the other stations involved in this combination, the WBLJ(FM)/WLYH-TV forms a separate ownership combination. This combination complies with the cross ownership limits without regard to the number of independent media voices remaining in the market. See FCC File BALH - 20010808AAY. Transferee also notes that the WLYH-TV contour encompasses Reading, the community of license of CCC stations WRFY-FM and WKAP(AM). The relevant contours of these stations, which are assigned to the Reading, PA Arbitron market, however, do not encompass Lancaster. Thus a combination involving WLYH-TV, WRFY-FM and WKAP(AM) is formed. The Lancaster voices count at Attachment G, demonstrates that this combination complies with the cross ownership rules, even without considering Reading Arbitron market radio stations, because there are 10 independently owned media voices counting television, newspaper and cable in the Harrisburg-Lancaster-Lebanon-York DMA.

³² As demonstrated in the San Francisco contour map in Attachment F, although the KFTY, Santa Rosa contour does not encompass the city of license of any CCC radio station, the contours of the four San Francisco-area radio stations listed in Table 3 encompass Santa Rosa. Even though the radio stations are located in different Arbitron markets, they thus comprise a single radio/TV combination. As previously noted, when a combination involves stations in different radio markets, the voice requirement must be met in each market. As demonstrated in the Attachment G voices studies, there are at least 10 independent voices in each of these markets, a sufficient number to permit common ownership of this 1 TV/4 radio combination.

| | | |
|---|-----|--|
| <u>Santa Barbara-Santa Maria-San Luis Obispo, CA</u> ³³ KCOY-TV, Santa Maria, CA KSMA(AM), Santa Maria, CA KSNI-FM, Santa Maria, CA KXFM(FM), Santa Maria, CA KSMY(FM), Lompoc, CA KSLY-FM, San Luis Obispo, CA KURQ(FM), Grover Beach, CA KSTT-FM, Los Osos, CA <i>San Luis Obispo (Arbitron Market)</i> KCOY-TV, Santa Maria, CA KVEC(AM), San Luis Obispo, CA KSLY-FM, San Luis Obispo, CA KURQ(FM), Grover Beach, CA KSTT-FM, Los Osos, CA | -- | No Market has fewer than eight independent television voices. |
| <u>Syracuse, NY</u> WSYR-TV, Syracuse, NY WHEN(AM), Syracuse, NY WSYR(AM), Syracuse, NY WBBS(FM) Fulton, NY WPHR(FM), Auburn, NY WWDG(FM), DeRuyter, NY WWHT(FM), Syracuse, NY WYYY(FM), Syracuse, NY | 10+ | Yes |
| <u>Syracuse, NY</u> WSYR-TV, Syracuse, NY WHEN(AM), Syracuse, NY WSYR(AM), Syracuse, NY WBBS(FM) Fulton, NY WPHR(FM), Auburn, NY WWDG(FM), DeRuyter, NY WWHT(FM), Syracuse, NY WYYY(FM), Syracuse, NY | 20+ | No Market has fewer than eight independent television voices. |

³³ The TV/radio combinations in this market involve KCOY-TV, Santa Maria, California and nine radio stations divided among three separate Arbitron radio metro markets. In the Santa Maria-Lompoc, California market CCC owns KSMA(AM), KSNI-FM and KXFM(FM), Santa Maria and KSMY(FM), Lompoc. In the San Luis Obispo, California market it owns KSLY-FM and KVEC(AM), San Luis Obispo, KSTT-FM, Los Osos and KURQ(FM), Grover Beach. Finally, in the Santa Barbara, California market CCC owns several stations, of which only KSPE-FM, Ellwood, California is either triggered or triggers the cross ownership rules. Specifically, the Santa Barbara-Santa Maria-San Luis Obispo, CA map included in Attachment F demonstrates that the Grade A contour of KCOY-TV encompasses the communities of license of all of the stations in the Santa Maria-Lompoc and San Luis Obispo markets and Ellwood in the Santa Barbara market. As noted above, the Commission does not count radio stations assigned to one Arbitron radio market toward an entity's ownership limits in a separate Arbitron market except when the contour of the radio station triggers the rule. Under this policy, three TV/radio combinations are created. The first combination, in the San Luis Obispo market, consists of KCOY-TV, Santa Maria, CA plus the four stations licensed to that market (KSLY-FM, KSTT-FM, KURQ(FM) and KVEC(AM)). The second combination includes KCOY-TV and the four stations in the Santa Maria-Lompoc market (KSMA(AM), KSMY(FM), KSNI-FM and KXFM(FM)) plus the three San Luis Obispo market stations whose 1 mV/m contours encompass Santa Maria, triggering the cross-ownership rule independently of the TV station (KSLY-FM, KSTT-FM and KURQ). Finally, the third combination consists of KCOY-TV and KSPE-FM, Ellwood, CA, which is in the Santa Barbara market. Because the contour of KSPE-FM does not encompass Santa Maria, and because the station is neither in the Santa Maria-Lompoc or San Luis Obispo Arbitron radio markets, a one radio/one television station combination results. This combination complies with the cross ownership limits without regard to the number of independent media voices remaining in the market.

| % | | 100 | | 77 | 9 | 14 |
| NSI | 856,100 | 840,260 | | 490,470 | 185,930 | 163,860 |
| % | | 100 | | 58 | 22 | 20 |

TOTAL HOUSEHOLDS are estimates produced by Market Statistics, a division of Claritas, Inc., and are copyrighted by them. They are the base against which television penetration estimates have been applied.

TELEVISION OWNERSHIP PERCENTS are Nielsen Media Research estimates based on combining historical projections from the 1960 and 1970 Censuses with estimates from the NSI telephone interviews from a number of all market measurement periods.

HOUSEHOLDS ARE OCCUPIED HOUSING UNITS. The household universe estimates shown in Table 1 are estimates of year-round households, i.e., housing units occupied year round. Seasonal housing units which are occupied only during certain seasons of the year are not included in the Household Universe Estimates. Thus, the number of households during the survey period may differ from the estimate in Table 1.

† See Local Reference Supplement for definition of county size.

LT Less than 1%.

(D) THIS OUTSIDE STATION IS REPORTABLE IN THE DAYPART SECTION ONLY

Effective on September 5, 2006 FOX launched a new network-MyNetwork TV, identified as MNT. Please see the Special Notes for additional information.

Effective on September 18, 2006 Warner Bros. Entertainment and CBS Corporation jointly launched a new network-identified as CW. Please see the Special Notes for additional information.

Effective September 17, 2006, the WB and UPN networks ceased operations.

TABLE 2 - PENETRATION ESTIMATES

| AREA | PERCENT OF TV HOUSEHOLDS | | | | | | |
|--------------|--------------------------|---------------|--------------------|----------|------------------|----------|--------------------|
| | BLACK % | HISPANIC % | MULTI- SET % | VCR % | CABLE TV % | ADS % | CABLE PLUS % |
| METRO | 21.0 | 4.1 | | | 70 | | |
| DMA | 20.3 | 3.8 | 88 | 82 | 66 | 25 | 89 |
| JACKSONVILLE | 29.6 | 4.6 | NA | NA | NA | NA | NA |

Multi-set estimates are based on the metered sample. Multi-set, Cable TV, VCR, ADS and Cable Plus estimates are based on the latest available data. Black and Hispanic estimates are as of January 1, 2007. Cable Plus is defined as the presence of Cable and/or Alternate Delivery System (ADS). See Local Reference Supplement for detail.

TABLE 3 - SAMPLE SIZES: HOUSEHOLDS

| AREA | METER SAMPLE IN-TAB AVG. | DIARY SAMPLE(1) | | | | | |
|------------------|-----------------------------|------------------------------------|----------|-------|----------------------------|----------|---------|
| | | INITIALLY DESIGNATED HOUSEHOLDS | | | IN-TAB DIARY HOUSEHOLDS | | |
| | | LISTED | UNLISTED | TOTAL | LISTED | UNLISTED | TOTAL |
| METRO | 279 (EST D) | 2747 | 740 | 3487 | 717 | 113 | 830 |
| DMA(INCL. METRO) | 358 (2) | 3565 | 965 | 4530 | 894 | 154 | 1048 |
| NON-DMA | --- | 1432 | 492 | 1924 | 383 | 69 | 452 (3) |
| NSI(INCL. DMA) | 358 | 4997 | 1457 | 6454 | 1277 | 223 | 1500 |

(1) The Non-DMA (Diary) sample is combined with the DMA meter sample for compiling Station Total households; the entire diary sample is used for Audience Composition data.

(2) Yields an approximate equivalent simple random sample size of 699.

(2) + (3) NSI Area Station Total households herein are based on these in-tab samples and yield an approximate equivalent simple random sample size of 957.

Equivalent simple random sample size is a term sometimes used for the statistical equivalent of the sample size for computing sampling errors or statistical tolerances.

For sample selection procedures in Total Telephone Frame markets, see Local Reference Supplement.

Where applicable, LPM Counties are not included in the NSI Area of Non-LPM Markets.

HOLLY SPRINGS WBUT 20 IND

WBUT-TV IS LPTV STATION WBUT-LP.

Effective on September 5, 2006 FOX launched a new network-MyNetwork TV, identified as MNT. Please see the Special Notes for additional information.

Effective on September 18, 2006 Warner Bros. Entertainment and CBS Corporation jointly launched a network-identified as CW. Please see the Special Notes for additional information.

Effective September 17, 2006, the WB and UPN networks ceased operations.

TABLE 2 - PENETRATION ESTIMATES

| AREA | PERCENT OF TV HOUSEHOLDS | | | | | | |
|---------|--------------------------|---------------|--------------------|----------|------------------|----------|--------------------|
| | BLACK % | HISPANIC % | MULTI- SET % | VCR % | CABLE TV % | ADS % | CABLE PLUS % |
| METRO | 42.6 | 2.3 | | | 55 | | |
| DMA | 38.9 | 2.0 | 87 | 82 | 53 | 32 | 84 |
| MEMPHIS | 61.4 | 2.8 | NA | NA | NA | NA | NA |

Multi-set estimates are based on the metered sample. Multi-set, Cable TV, VCR, ADS and Cable Plus estimates are based on the latest available data. Black and Hispanic estimates are as of January 1, 2007. Cable Plus is defined as the presence of Cable and/or Alternate Delivery System (ADS). See Local Reference Supplement for detail.

TABLE 3 - SAMPLE SIZES: HOUSEHOLDS

| AREA | METER SAMPLE IN-TAB AVG. | DIARY SAMPLE(1) | | | | | |
|-----------------|-----------------------------|------------------------------------|----------|-------|----------------------------|----------|--------|
| | | INITIALLY DESIGNATED HOUSEHOLDS | | | IN-TAB DIARY HOUSEHOLDS | | |
| | | LISTED | UNLISTED | TOTAL | LISTED | UNLISTED | TOTAL |
| METRO | 270 (EST'D) | 2436 | 591 | 3027 | 678 | 102 | 780 |
| DMA(INCL.METRO) | 369 (2) | 3546 | 863 | 4409 | 931 | 142 | 1073 |
| NON-DMA | --- | 2062 | 407 | 2469 | 540 | 73 | 613(3) |
| NSI(INCL. DMA) | 369 | 5608 | 1270 | 6878 | 1471 | 215 | 1686 |

(1) The Non-DMA (Diary) sample is combined with the DMA meter sample for compiling Station Total households; the entire diary sample is used for Audience Composition data.

(2) Yields an approximate equivalent simple random sample size of 720.

(2) + (3) NSI Area Station Total households herein are based on these in-tab samples and yield an approximate equivalent simple random sample size of 1048.

Equivalent simple random sample size is a term sometimes used for the statistical equivalent of the sample size for computing sampling errors or statistical tolerances.

For sample selection procedures in Total Telephone Frame markets, see Local Reference Supplement.

Where applicable, LPM Counties are not included in the NSI Area of Non-LPM Markets.

* = NSI client

Network affiliation as shown herein is based on information supplied by the networks for use in Nielsen Television Index (NTI). For additional details, see the Local Reference Supplement.

| % | | 100 | | 77 | 11 | 12 |

TOTAL HOUSEHOLDS are estimates produced by Market Statistics, a division of Claritas, Inc., and are copyrighted by them. They are the base against which television penetration estimates have been applied.

TELEVISION OWNERSHIP PERCENTS are Nielsen Media Research estimates based on combining historical projections from the 1960 and 1970 Censuses with estimates from the NSI telephone interviews from a number of all market measurement periods.

HOUSEHOLDS ARE OCCUPIED HOUSING UNITS. The household universe estimates shown in Table 1 are estimates of year-round households, i.e., housing units occupied year round. Seasonal housing units which are occupied only during certain seasons of the year are not included in the Household Universe Estimates. Thus, the number of households during the survey period may differ from the estimate in Table 1.

† See Local Reference Supplement for definition of county size.

Statement of Brian E. Cobb

Regarding

Operation of KMCB(TV), Coos Bay and KTCW(TV), Roseburg
as Satellites of KMTR(TV), Eugene, Oregon

December 7, 2006

Ms. Donna C. Gregg
Chief – Media Bureau
Federal Communications Commission
445 12th Street, SW
Room #3-C740
Washington, DC 20554

Re: Application for Transfer of Control of:

KMTR-TV, Eugene, Oregon (Facility ID 35189)
KMCB(TV), Coos Bay, Oregon (Facility ID 35183)
KTCW(TV), Roseburg, Oregon (Facility ID 35187)

Dear Ms. Gregg:

In connection with the above referenced applications, I have been requested by the parties thereto to supply you with information related to the continued operation of KMCB and KTCW as satellites of KMTR-TV. This letter addresses the feasibility of operating and marketing KMCB and KTCW as stand-alone operations rather than as satellites.

By way of background, I have more than thirty-five years of experience in the broadcasting industry as an owner, manager and broker of broadcast stations. I am the founder and president of CobbCorp, LLC, and a former founder and managing director of Media Venture Partners, both nationally recognized media brokerage and appraisal firms. I am responsible for the brokerage and appraisal of television stations for CobbCorp, and, during the past twenty years, I have personally been involved in the brokerage of more television stations than any other media broker in the United States. I served as the President of the National Association of Media Brokers and regularly speak on industry panels.

I am familiar with the Eugene market and its surrounding television markets, am knowledgeable of the signals of the television stations available in the market, and the level of competition among them and other relevant market data. As a result, I have enough knowledge to reach certain conclusions concerning KMCB and KTCW's positions in the market. In fact, I previously reviewed the market and opined on these same stations in 2001.

Ms. Gregg
December 7, 2006
Page Two

There are 10 operating commercial television stations assigned to the Eugene DMA, the 121st largest television market as defined by Nielsen. KMCB and KTCW are operated as satellites of KMTR as previously approved by the FCC.

With other stations in the market providing multiple signals, particularly the highest rated station, it would be very difficult for KMTR or its satellites to viably compete against such a strong station as well as several other outlets as stand alone operations.

If KMCB and KTCW were converted to full service stations, it is very probable that they would be financially unsuccessful and at a significant competitive disadvantage. Coverage maps of the stations show that they are unable to adequately cover the DMA and do not reach Eugene, the major population center.

Even if it were possible for KMCB and KTCW to serve a greater portion of the market, they would have little prospect of garnering affiliation agreements with any of the existing full service networks. If KMCB and KTCW were forced to broadcast as independents and compete against the other stations currently serving the market, their prospects of financial survival would be doubtful.

As a result of providing insufficient signals in the entire DMA, and the lack of any prospects of any meaningful network affiliations, it is my opinion that KMCB and KTCW could not operate successfully as stand-alone stations. For the stations to survive and provide service to their communities, they should continue to operate as satellites of a more viable facility.

If you have any questions concerning the foregoing opinions, I will be available to respond to them.

Sincerely,

Brian E. Cobb
President
