Robin—

Following up on our conversation earlier today and last week:

- 1- Station WKZD is operating with the attached licensed operating parameters.
- 2- The pending June 2020 license application, BML-20200602AAM, which you asked about, was filed, as set forth in the application, pursuant to FCC Rule 73.1690(c)(9), solely to change status from a commercial station to a non-commercial educational station, and specifically stated that no technical changes were requested.
- 3- Accordingly, to the extent technical information is desired, as you grant the pending application, the licensee requests that the FCC use the existing licensed parameters, attached, for that application.
- 4- It is respectfully requested that the application be approved as it is consistent with FCC procedures for applications filed under 73.1690(c)(9) solely requesting change in status without change in technical facilities. As a recent example, a change in status license application (BML-20200519AAP) simply referencing no change in facilities, and without a completed technical Section III, was filed May 19, 2020, for AM Station WQRX, fac. id.60648, and was granted on June 26, 2020, in conjunction with an assignment of license.

Thank you for your attention to this application. Please let me know if any questions arise.

Best Regards Scott

Subject: WKDZ(AM) Form 302-AM for Change from Commercial to Non-Commercial Status

Robin- Following up on our telephone conversation, attached is the Form 302-AM for WKDZ(AM) fac id 290, Priceville, AL. This application was filed by the licensee, Somerville Baptist Church, to request change the station's status from a commercial to non-commercial status. Section II of FCC Form 340 is attached as well as appropriate exhibits. No technical changes are being proposed and this is simply a change in status proposal.

To the extent it is relevant or helpful, in 2015, pursuant to Section 1.1162(c)(1) of the rules, Somerville Baptist Church's request for exemption from regulatory fee payments was granted.

Please let me know if any questions arise.
My mobile number is below.

Thank you for your help. Regards Scott
