| KWDS | KETTLEMAN CITY | CA | 210 | B | 198.83 | 0.00 | 341.7 | 38.60 dB |

Note A: The proposed 100 dBu interfering contour is within the 2nd adjacent 60 dBu contours of KMRO and KLFH. However, no interference will occur due to lack of population within the interfering contour

Note B: This proposal will be within the interfering contours of 990621TF and 990129TG. If a waiver is required to accept interference, then a waiver to receive interference from 990621TF and 990129TG is requested.
