To Whom It May Concern:

This letter is in support of the request for a 100-watt LPFM radio station for Ligonier, Indiana.

We feel this could be very educational for our mass media, speech and communication classes to have the opportunity to work with this station.

In addition, information concerning school activities and events could be broadcast. This would be very helpful as we are trying to improve and increase our communication with parents and the public. Our community has no radio or television station. Ligonier has a newspaper, but it is published only once a week.

It is our desire that you look favorable upon this request, and we feel there is a real need for this in our community.

Sincerely,

A handwritten signature in cursive script, reading "Roger Schermerhorn".

Roger Schermerhorn, Principal
West Noble High School
