

Request for Extension of Reduced Power DTV STA
NCE Station KIIN-DT, Iowa City, IA (F.I.N. 29095)

Iowa Public Broadcasting Board ("IPBB"), pursuant to Section 73.1635 of the Commission's rules, hereby requests an extension of Special Temporary Authority ("STA") to allow for continued operation of reduced power DTV facilities for noncommercial educational television Station KIIN-DT, Iowa City, Iowa.

The Commission granted STA for the reduced power operation of Station KIIN-DT on May 17, 2005 (*see* FCC File No. BDSTA-20050301AEH, enclosed). The STA is currently due to expire on November 17, 2005. Pursuant to Paragraphs 34-36 of the *Memorandum Opinion and Order on Reconsideration* in MM Docket No. 00-39, FCC 01-330 (rel. Nov. 15, 2001), SCETV requests an initial six-month extension of this STA.

IPBB proposes no technical changes to its current STA operation for KIIN-DT, as outlined in the initial request and as granted by the Commission. The STA specifies an ERP of 2.0 kW, a height of radiation center above average terrain of 39 meters, use of directional antenna SCA / 4DR-4-2HW, and geographical coordinates of 41-43-15 N; 91-20-30 W. Grant of this request would serve the public interest because it would allow IPBB to maintain, in a cost effective manner, existing DTV broadcasting of station KIIN's noncommercial educational programming in the Iowa City area.
