Section 73.203 states that...

“(a) Except as provided for in paragraph (b) of this section and Sec. [1.401](#)(d) of this chapter and [73.3573](#)(a)(1), applications may be filed to construct new FM broadcast stations only at the communities and on the channels contained in the Table of Allotments (Sec. [73.202](#)(b)).”

Channel 292A is currently assigned to Norman, Oklahoma. No community of license change is being proposed.

and

“(b) Applications filed on a first come, first served basis for the minor modification of an existing FM broadcast station may propose any change in channel and/or class and/or community not defined as major in Sec. [73.3573](#)(a). Applications for a change in community of license must comply with the requirements set forth in Sec. [73.3573](#)(g).”

The instant proposal does not propose a change in channel or class or community of license, and is not defined as major in Section 73.3573.

The proposal therefore complies with Section 73.203.
