

**Exhibit 2**

**Use of Form 316**

In an application submitted on FCC Form 314 (FCC File No. BAL-20070430AEN), Blue Chip Communications, Inc. ("BCCI"), sought the Commission's consent to the assignment of its license for station WDBZ(AM), Cincinnati, Ohio (Facility ID No. 10139) to Radio One Licenses, LLC ("ROL"), a wholly owned subsidiary of Radio One, Inc. ("ROI"). On June 19, the Commission granted its consent to the assignment of WDBZ(AM) to ROL, and the parties have not yet consummated the transaction contemplated in that application.

For internal business reasons, ROI has designated another of its wholly owned subsidiaries, Blue Chip Broadcasting Licenses, Ltd. ("BCBL"), to acquire the WDBZ(AM) license in lieu of ROL. Accordingly, this application requests that the Commission consent to the *pro forma* assignment of WDBZ(AM) to BCBL. Both ROL and BCBL are commonly owned and controlled by ROI, and BCBL's officers and directors are identical to those of ROL. Additionally, the proposed *pro forma* assignment will not result in a material change in ownership, nor a change in control, nor a change in the interests of ROI's existing shareholders. Thus, the assignment of WDBZ(AM) from ROL to BCBL, both of which are commonly owned and controlled by ROI, satisfies the Commission's criteria for use of Form 316. *See* 47 C.F.R. Section 73.3540(f)(5).

Should the Commission grant its consent to the *pro forma* assignment described in the preceding paragraph, the license of WDBZ(AM) will be conveyed directly from BCCI to BCBL.
