Re: Universal Broadcasting of New York
WVNI(AM), Oakland, NJ
Facility ID Number: 68956
File Number: BMML-20170501ACS

Dear Applicant:

This is in reference to your above-captioned application to relicense WVNI(AM) pursuant to the method of moment rules and the staff's e-mail of September 20, 2017, to your consulting engineer to inform you of the "red light" status of the application.

The Commission's CDBS processing system shows a "red light" against this application. This generally means some sort of fee issue must be resolved before any further authorizations can be granted. Please contact Roland Helvajian (roland.helvajian@fcc.gov, telephone (202) 418-0444) in the fees section of the FCC for assistance with this matter. We believe that it is not in the public interest to retain not processable applications for extended periods of time.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter to provide you an opportunity to resolve the fee matter. Failure to have the "red light" status removed within that time will result in the dismissal of the application pursuant to Section 1.1910(b)(3) and 73.3568(a)(1) of the Commission's Rules.

Sincerely,

Son Nguyen,
Supervisory Engineer
Audio Division
