

County of San Bernardino, CA
County Service Area 70 TV-5, Copper Mountain
August 10, 2006

SILENT STA REQUEST
Exhibit 1

In conjunction with California television license renewals for Special Districts, San Bernardino County, it was discovered that use of the Copper Mountain facilities had been discontinued. The County no longer has access to the common transmitter site, and the following stations are off the air:

K15FC	Facility ID No.	43809
K17GJ		43816
K21GR		43826

Renewals are being filed concurrently herewith. STA dark authority is being requested, so that the County may promptly undertake a review and determine whether these facilities should be modified and restored to service, or whether some or all of the license should be returned to the Commission for cancellation.

The County understands that no license renewal can be granted while the stations remain dark.
