

KGRI Directional Antenna System Installation Engineering Affidavit  
FCC Permit Number BPED-19980826MI  
Facility ID: 91560

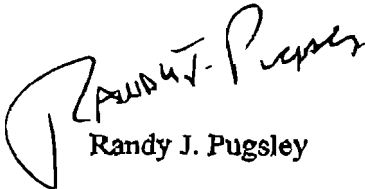

I, Randy J. Pugsley, Certify that the Directional Antenna System was installed in accordance with the manufacturers specifications. I personally supervised the on-site installation. A licensed land surveyor was contracted to affirm site coordinates and establish the proper antenna orientation and height as specified per FCC Construction Permit BPED-19980826MI. A copy of the Survey is included with this document.

Shively Labs conducted an antenna proof of performance for the KGRI installation. Datum from the proof was employed for the purpose of FCC compliance with permit number BPED-19980826MI in accordance with all applicable FCC rules and regulations. The composite antenna proof of performance document is included with this filing.

**Certifying Engineer Qualifications:**

I have supervised the Technical facilities of numerous AM and FM Radio Broadcast facilities since 1970. I have conducted antenna proof of performance measurements for filing before the Commission. I have supervised many antenna installations. Previous licenses held include FCC First Class, Second Class, and Third Class all with endorsements. I now hold an FCC Lifetime General Class license.

I, Randy J. Pugsley, swear to the accuracy of all statements contained within this document dated 10/12/2005.

Randy J. Pugsley
