

MODIFICATION OF STATION LICENSE
VERO BEACH FM RADIO PARTNERSHIP
WGNX (FM) RADIO STATION
CH 259C2 - 99.7 MHZ -50.0 KW
VERO BEACH, FLORIDA
May 2004

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Vero Beach FM Radio Partnership (“Vero”), licensee of FM radio station WGNX, Channel 259C2, Vero Beach, Florida. Vero herein proposes to modify its station license by increasing power to 50.0 kilowatts. In March 2002, Vero filed FCC Form 302-FM to delete the §73.215 authorization (BMLH-20020314AAX). Vero herein proposes to modify their current license to reflect the increase in power to the maximum 50.0 kilowatts. No other changes are proposed. Exhibit A is a calculation of the transmitter power output.

Attached as Exhibit B is a Radio Frequency Radiation Assessment demonstrating that the proposed WGNX is in compliance with the Commission’s radio frequency rules and regulations. Vero herein restates that it will, in cooperation with other tower users, reduce the power of WGNX, or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC’s guidelines.
