

FCC 316 Application – WMCA(AM), WNYM(AM), W283BR

The FCC licenses for WMCA(AM), FCC Facility ID No. 58626, licensed to New York, NY, WNYM(AM), FCC Facility ID No. 58635, licensed to Hackensack, NJ, and W283BR, FCC Facility ID No. 20656, licensed to Dansville, NY (the “Licenses”) are currently held by Salem Media of New York, LLC, a Delaware limited liability company (“SMNY”). SMNY has two members: SCA License Corporation (“SCA”), which holds a 99% membership interest, and Salem Radio Operations, LLC (“SRO”), which holds a 1% membership interest. SCA holds 100% of the membership interests in SRO. As a result of SCA’s membership interests in SMNY and SRO, SMNY is a wholly owned subsidiary of SCA. Salem Communications Holding Corporation (“SCHC”) is the sole stockholder of SCA. SCHC is also the sole stockholder of the proposed transferee, Caron Broadcasting, Inc., an Ohio corporation (“Caron”). SCHC is a wholly-owned subsidiary of Salem Media Group, Inc. (“SMG”).

SMG desires to simplify the current corporate structure of its subsidiary entities. In this regard, SMG plans to merge SCHC into Caron. As a result of this transaction, Caron will become the sole stockholder of SCA, and the sole stockholder of Caron will be SMG. This Form 316 application seeks permission to transfer control of SMNY from SCHC to Caron in connection with the merger of SCHC into Caron and the resultant ownership of SMNY’s parent corporation, SCA, by Caron.
