

Exhibit 15

Local Radio Ownership Introduction

The instant application (the “Application”) requests Commission consent for the assignment of the licenses for thirteen radio stations (the “Stations” and each a “Station”) from GoodRadio.TV License, LLC (“GoodRadio”) to the GoodRadio.TV Divestiture Trust, Leibowitz Station Trust, LLC, Trustee (the “Trust”). GoodRadio proposes to assign the Stations to the Trust contemporaneously with the closing of the assignment of the licenses for 186 radio stations from various subsidiaries of Clear Channel Communications, Inc. to GoodRadio (the “Clear Channel Closing”). *See* FCC File Nos. BALH-20070514AHF, *et al.* By assigning the Stations to the Trust, the Application ensures that GoodRadio will comply with the FCC’s local ownership rules immediately after the Clear Channel Closing.

The common ownership of several of the Stations implicates the Commission’s local radio ownership rule because (i) the principal community contours for certain Stations overlap, (ii) certain Stations are licensed to communities within Arbitron Metro Markets, (iii) and/or BIA reports that Arbitron lists certain Stations as “home” to a ranked Arbitron market.¹

Under Section 73.3555(a)(1) of the Commission’s rules, the FCC uses a tiered approach, as described below, to determine whether a combination of commonly-owned radio stations complies with the local radio ownership limits for any particular market.²

Full-Power Commercial and Noncommercial Stations in the Market	Maximum Number of Stations in Which a Single Entity May Have an Attributable Interest	Maximum Number of Stations in the Same Service
45 or More Stations	8 Radio Stations	5
Between 30 and 44 Stations	7 Radio Stations	4
Between 15 and 29 Stations	6 Radio Stations	4
14 or Fewer Stations	5 Radio Stations (Provided that no entity may have an interest in more than 50% of the stations in the market)	3

To determine the number of stations in a market, the Commission relies on one of three methodologies:

¹ *See* 2002 Biennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996, *Report & Order & Notice of Proposed Rulemaking*, 18 FCC Rcd 13,620, ¶¶ 279-86 (2003).

² *See* 47 C.F.R. 73.3555(a)(1) (2006).

1. Arbitron-Only Methodology: When more than one commonly owned radio station is licensed to a community within an Arbitron Metro Market, the FCC counts the number of commercial and noncommercial radio stations that are either “home” to the Arbitron market or are licensed to a community within that market.³

2. Contour-Only Methodology: For combinations that are licensed to communities outside an Arbitron market, the Commission defines the market as the area where the principal community contours for the commonly-owned stations overlap. To determine the number of stations in that market, the Commission counts all stations whose principal community contours overlap that of at least one of the commonly-owned stations. The Commission, however, excludes all stations whose transmitters are greater than 92 kilometers from the mutual overlap area and any commonly owned stations that are not included already in the market.⁴

3. Arbitron-Contour Hybrid Methodology: The FCC requires an analysis under both the Arbitron methodology and the contour methodology in two situations: (i) if at least one of the commonly-owned stations is “home” to an Arbitron market but it is licensed to a community outside that market or (ii) if a station is licensed to a community within an Arbitron market but its principal community contour overlaps that of another commonly-owned stations that is not licensed to a community within that Arbitron market.⁵

As described below, each of the radio combinations that GoodRadio proposes to assign to the Trust will comply with the Commission’s local ownership rules. Furthermore, upon assigning these stations to the Trust, GoodRadio’s local radio combinations after the Clear Channel Closing also will comply with the Commission local ownership rules.

Bangor, Maine: GoodRadio proposes to assign WFZX(FM), Searsport, Maine, and WGUY(FM), Dexter, Maine, to the Trust. Both stations are licensed to communities in the Bangor, Maine Arbitron Metro market.⁶ The BIA Media Access Pro Database identifies twenty-three full-power commercial and non-commercial stations as “home” to or licensed within the Bangor market. Consequently, the Trust’s proposed ownership of two FM stations in the Bangor market complies with the local radio ownership rules under the Arbitron methodology. In addition, GoodRadio’s proposed ownership of four FM stations and one AM station in the Bangor market after the Clear Channel Closing complies with the Commission’s local ownership rules. The attached technical exhibit

³ See *Biennial Review*, 18 FCC Rcd at ¶ 280.

⁴ See *id.* at ¶ 285.

⁵ See *id.* at ¶ 286 n.606.

⁶ See BIA Financial Network, “Bangor, ME Market Overview” and “FCC Geographic Market Definition for Bangor, ME” available at BIA Media Access Pro Database.

also demonstrates that GoodRadio's ownership of these stations will comply with the local ownership rules.

Bismarck, North Dakota: GoodRadio proposes to assign KBMR(AM), Bismarck, North Dakota, to the Trust. The station is licensed to a community within the Bismarck, North Dakota, Arbitron Metro market.⁷ The BIA Media Access Pro Database identifies twenty-one full-power commercial and non-commercial stations as "home" to or licensed within the Bismarck market.⁸ Consequently, the Trust's proposed attributable interest in one AM station in the Bismarck market complies with the local radio ownership rules under the Arbitron markets methodology. In addition, GoodRadio's proposed ownership of three FM stations and two AM stations in the Bismarck market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

Eau Claire, Wisconsin: GoodRadio proposes to assign WISM-FM, Altoona, Wisconsin, and WQRB(FM), Bloomer, Wisconsin, to the Trust. Both stations are licensed to communities within the Eau Claire, Wisconsin Arbitron Metro market.⁹ The BIA Media Access Pro Database identifies nineteen full-power commercial and non-commercial stations as "home" to or licensed within the Eau Claire market. Consequently, the Trust's proposed ownership of two FM stations in the Eau Claire market complies with the local radio ownership rules under the Arbitron methodology. In addition, GoodRadio's proposed ownership of three FM stations and one AM station in the Eau Claire market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

Huntington-Ashland, West Virginia-Kentucky: GoodRadio proposes to assign WBKS(FM) and WIRO(AM), Ironton, Ohio, and WZZW(AM), Milton, West Virginia, to the Trust. All three stations are licensed to communities within the Huntington-Ashland, West Virginia-Kentucky Arbitron Metro market.¹⁰ The BIA Media Access Pro Database identifies twenty-seven full-power commercial and non-commercial stations as "home" to or licensed within the Huntington-Ashland market. Consequently, the Trust's proposed ownership of one FM station and two AM stations in the Huntington-Ashland market complies with the local radio ownership rules under the Arbitron methodology. In addition, GoodRadio's proposed ownership of four FM stations and two AM stations

⁷ See BIA Financial Network, "Lima, OH Market Overview," and "FCC Geographic Market Definition for Bismarck, ND," available at BIA Media Access Pro Database.

⁸ See BIA Financial Network, "FCC Geographic Market Definition for Bismarck, ND," available at BIA Media Access Pro Database.

⁹ See BIA Financial Network, "Eau Claire, WI Market Overview" and "FCC Geographic Market Definition for Eau Claire, WI" available at BIA Media Access Pro Database.

¹⁰ See BIA Financial Network "Competitive Overview for Huntington-Ashland, WV-KY," available at BIA Media Access Pro Database.

in the Huntington-Ashland market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

Laurel-Hattiesburg, Mississippi: GoodRadio proposes to assign WUSW(FM), Hattiesburg, Mississippi, to the Trust. The station is licensed to a community within the Laurel-Hattiesburg, Mississippi Arbitron Metro market.¹¹ The BIA Media Access Pro Database identifies twenty-three full-power commercial and non-commercial stations as "home" to or licensed within the Laurel-Hattiesburg market. Consequently, the Trust's proposed ownership of one FM station in the Laurel-Hattiesburg market complies with the local radio ownership rules under the Arbitron methodology. In addition, GoodRadio's proposed ownership of four FM stations and one AM station in the Laurel-Hattiesburg market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

Lima, Ohio: GoodRadio proposes to assign the license for WBUK(FM), Ottawa, Ohio, to the Trust. The station is licensed to a community outside of the Lima, Ohio Arbitron Metro market, but BIA identifies the station as "home" to the Lima market.¹² The BIA Media Access Pro Database identifies eighteen full-power commercial and non-commercial stations as "home" to or licensed within the Lima market. Consequently, the Trust's proposed ownership of one FM station in the Lima market complies with the local radio ownership rules under the Arbitron methodology. The ownership of this one station also complies with the Commission's local ownership rules under the contour overlap methodology because the principal community contour for WBUK(FM) does not overlap the principal community contour for any other Station identified in this Application. In addition, GoodRadio's proposed ownership of four FM stations and one AM station in the Lima market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

Minot, North Dakota: GoodRadio proposes to assign the license for KRRZ(AM), Minot, North Dakota, to the Trust. The station is not licensed to a community within any Arbitron Metro market, and according to BIA, the station is not "home" to any Arbitron Metro market. The Trust's proposed ownership of this one station complies with the Commission's local ownership rules under the contour overlap methodology because the principal community contour for KRRZ(AM) does not overlap the principal community contour for any other Station identified in this Application. In addition, as demonstrated in the attached technical exhibit GoodRadio's proposed ownership of four FM stations and one AM station in the Minot market after the Clear Channel Closing also complies with the Commission's local radio ownership rules.

¹¹ See BIA Financial Network, "Laurel-Hattiesburg, MS Market Overview" and "FCC Geographic Market Definition for Laurel-Hattiesburg, MS," available at BIA Media Access Pro Database.

¹² See BIA Financial Network, "Lima, OH Market Overview," and "FCC Geographic Market Definition for Lima, OH," available at BIA Media Access Pro Database.

Salisbury, Maryland: GoodRadio proposes to assign the licenses for WDKZ(FM), Salisbury, Maryland, and WLBW(FM), Fenwick Island, Delaware, to the Trust. Both stations are licensed to communities within the Salisbury, Maryland Arbitron Metro market.¹³ The BIA Media Access Pro Database identifies forty-two full-power commercial and non-commercial stations as “home” to or licensed within the Salisbury market. Consequently, the Trust’s proposed ownership of two FM stations in the Salisbury market complies with the local radio ownership rules under the Arbitron methodology. In addition, GoodRadio’s proposed ownership of four FM stations and two AM stations in the Salisbury market after the Clear Channel Closing also complies with the Commission’s local radio ownership rules.

¹³ See BIA Financial Network, “FCC Geographic Market Definition for Salisbury-Ocean City, MD,” *available at* BIA Media Access Pro Database.

Bangor, Maine

ENGINEERING STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
BANGOR/AUGUSTA, MAINE

This radio multiple ownership analysis was prepared to consider common ownership of the stations tabulated below under the FCC “Interim” contour analysis method. * GoodRadio.TV License, LLC. is acquiring several radio stations in the Bangor/Augusta, Maine area. Below is a tabulation of facilities for each station.

Call Sign / Facility ID	Location	Facilities
WABK(FM)/68297	Gardiner, ME	CH 282B 50 kW 113 M
WBFB(FM) / 25411	Belfast, ME	CH 284B 10 kW 335 M
WCME(FM)/4090	Boothbay Harbor, ME	CH 244B1 15.5 kW 127 M
WFZX(FM)/59505	Searsport, ME	CH 269B1 2.65 KW 306 M
WGUY(FM)/28685	Dexter, ME	CH 271C2 23 kW 205 M
WIGY(FM)/28684	Madison, ME	CH 248A 6 kW 100 M
WKCG(FM)/68660	Augusta, ME	CH 267B 50 kW 98 M
WKSQ(FM)/341	Ellsworth, ME	CH 233B 11.5 kW 313 M
WLKE(FM)/62289	Bar Harbor, ME	CH 256B 45 kW 121 M
WMCM(FM)/57301	Rockland, ME	CH 277B 16 kW 235 M
WQSS(FM)/41104	Camden, ME	CH 273B 7.9 kW 366 M
WTOS-FM/46352	Skowhegan, ME	CH 286C 57 kW 747 M
WVOM(FM)/4092	Howland, ME	CH 280C 90 kW 460 M
WWBX(FM)/3671	Bangor, ME	CH 246B 6.5 kW 375 M
WABI(AM)/3670	Bangor, ME	910 kHz 5 kW-U DA-N
WFAU(AM)/68296	Gardiner, ME	1280 kHz 5 kW-U DA-N
WRKD(AM)/57300	Rockland, ME	1450 kHz 1 kW-U ND-1

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since the principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) of some of the stations are involved in mutual overlap, an ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

Radio Markets

The “radio markets” applicable to common ownership of the subject stations are defined as the areas encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The table below lists the defined markets:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	---	WVOM(FM)/WLKE(FM)/WKSQ(FM)
Market 2	WABI	WWBX(FM)/WVOM(FM)/WKSQ(FM)/WFZX(FM)/WBFB(FM)
Market 3	WABI	WWBX(FM)/WVOM(FM)/WGUY(FM)/WBFB(FM)
Market 4	---	WTOS-FM/WGUY
Market 5	---	WTOS-FM/WIGY
Market 6		WTOS-FM/WABK-FM/WKCG
Market 7	WFAU	WKCG/WCME/WABK-FM
Market 8	---	WQSS/WKCG/WCME/WABK-FM
Market 9	---	WQSS/WMCM/WCME/WABK-FM
Market 10	WRKD	WQSS/WMCM/WBFB
Market 11	---	WWBX/WQSS/WKSQ/WFZX/WBFB

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

Count of Stations in the Defined Markets

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Markets	Number of Other Stations in the Radio Market
Market 1	4 AM, 16 FM; 20 Total
Market 2	5 AM, 23 FM; 28 Total
Market 3	5 AM, 21 FM; 26 Total
Market 4	2 AM, 5 FM; 7 Total
Market 5	2 AM, 5 FM; 7 Total
Market 6	2 AM, 5 FM; 7 Total
Market 7	2 AM, 15 FM; 17 Total
Market 8	2 AM, 15 FM; 17 Total
Market 9	2 AM, 15 FM; 17 Total
Market 10	4 AM, 14 FM; 18 Total
Market 11	5 AM, 17 FM; 22 Total

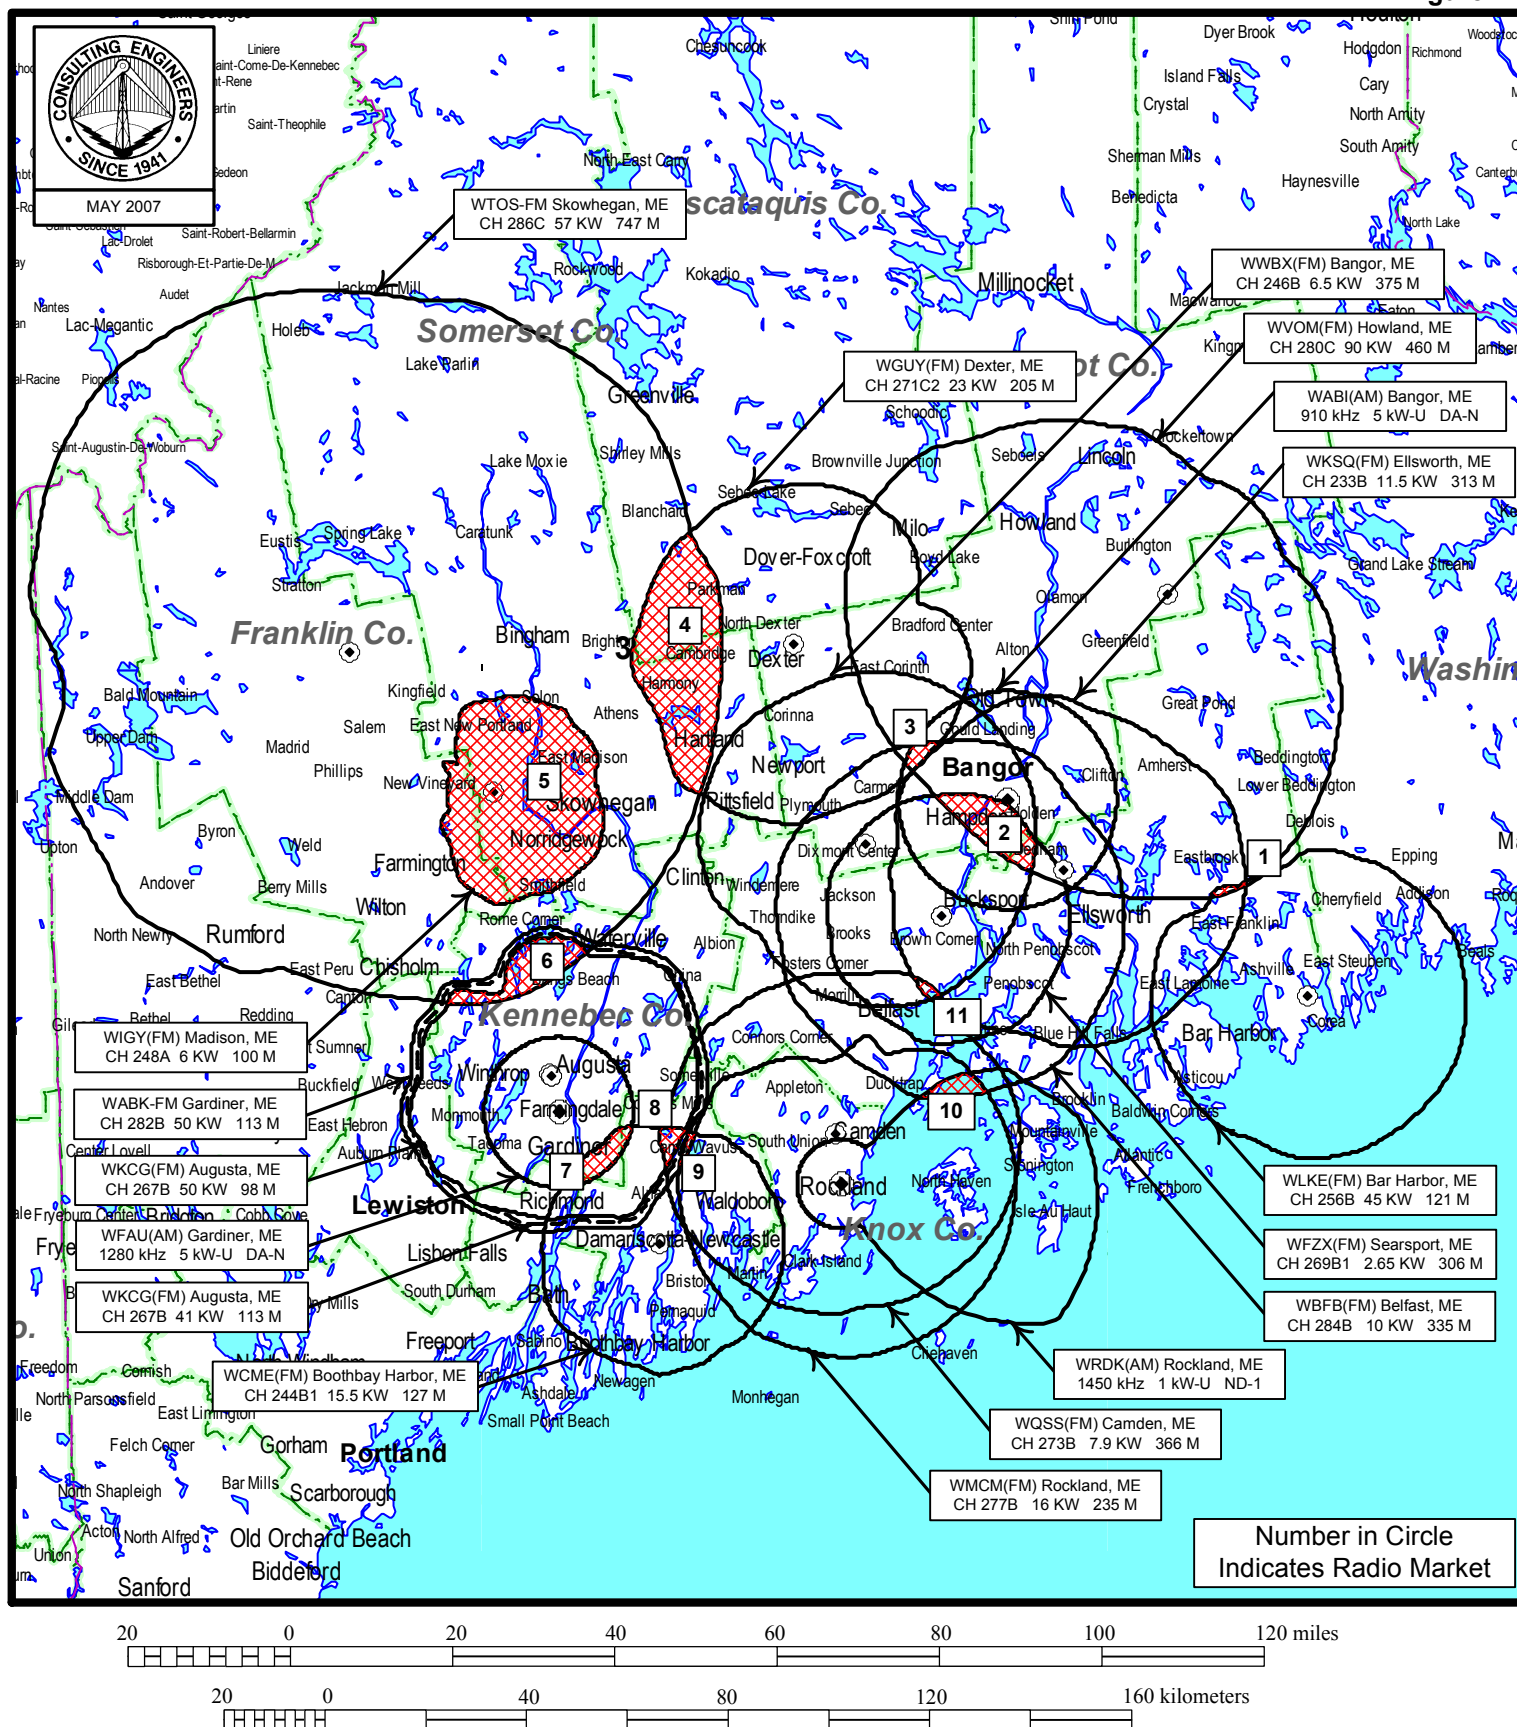

Figure 2 are tabulations of the radio stations identified in the defined radio market. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials evenly-spaced every 10 degrees of azimuth.

Eau Claire, Wisconsin

ENGINEERING STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
EAU CLAIRE, WISCONSIN/ROCHESTER, MINNESOTA

This radio multiple ownership analysis was prepared to consider common ownership of the stations tabulated below under the FCC “Interim” contour analysis method.* GoodRadio.TV License, LLC. is acquiring several radio stations in the Eau Claire, Wisconsin and Rochester, Minnesota area. Below is a tabulation of facilities for each station.

Call Sign / Facility ID	Location	Facilities
KMFX-FM/54635	Lake City, MN	CH 273C3 9.4 kW 161 M
KRCH(FM)/35527	Rochester, MN	CH 269C2 39 kW 169 M
WATQ(FM)/36357	Chetek, WI	CH 294C2 35 kW 178 M
WBIZ-FM/2108	Eau Claire, WI	CH 264C1 100 kW 147 M
WISM-FM/1130	Altoona, WI	CH 251C3 10 kW 53 M
WMEQ-FM/52473	Menomonie, WI	CH 221C2 17.5 KW 219 M
WQRB(FM)/5870	Bloomer, WI	CH 236C3 8.9 kW 166 M
KMFX(AM)/54624	Wabasha, MN	1190 kHz 1 kW-D ND
KNFX(AM)/56811	Austin, MN	970 kHz 5 kW-D 0.5 kW-N DA
KWEB(AM)/35526	Rochester, MN	1270 kHz 5 kW-D 1 kW-N DA
WBIZ(AM)/2107	Eau Claire, WI	1400 kHz 1 kW-U ND-2
WMEQ(AM)/52474	Menomonie, WI	880 kHz 10 kW-D 0.21 kW-N DA-N

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since the principal community contours (5 mV/m for AM stations,

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

3.16 mV/m for FM stations) of some of the stations are involved in mutual overlap, an ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

Radio Markets

The “radio markets” applicable to common ownership of the subject stations are defined as the areas encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The table below lists the defined markets:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	WMEQ/WBIZ	WBIZ-FM/WISM-FM/WMEQ-FM/WQRB
Market 2	WMEQ/WBIZ	WBIZ-FM/WATQ/WMEQ-FM/WQRB
Market 3	KMFX/WMEQ	---
Market 4	KWEB/KMFX	KMFX
Market 5	KWEB/KNFX	KMFX/KRCH

Count of Stations in the Defined Market

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Markets	Minimum Number of Other Stations in the Radio Market
Market 1	5 AM, 13 FM; 18 Total
Market 2	8 AM, 16 FM; 24 Total
Market 3	4 AM, 8 FM; 12 Total

Market 4	2 AM, 8 FM; 10 Total
Market 5	2 AM, 8 FM; 10 Total

Figure 2 are tabulations of the radio stations identified in the defined radio market. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials evenly-spaced every 45 degrees of azimuth.

Laurel-Hattiesburg, Mississippi

ENGINEERING STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
LAUREL/HATTIESBURG, MISSISSIPPI

This radio multiple ownership analysis was prepared to consider common ownership of the stations tabulated below under the FCC “Interim” contour analysis method. * GoodRadio.TV License, LLC. is acquiring several radio stations in the Laurel/Hattiesburg, Mississippi area. Below is a tabulation of facilities for each station.

Call Sign / Facility ID	Location	Facilities
WHER(FM)/52618	Heidelberg, MS	CH 257C2 50 kW 150 M
WJKX(FM)/61116	Ellisville, MS	CH 273C2 50 kW 150 M
WNSL(FM)/16784	Laurel, MS	CH 262C0 100 kW 324 M
WUSW(FM)/54611	Hattiesburg, MS	CH 279C0 100 kW 324 M
WZLD(FM)/66954	Petal, MS	CH 292A 1.8 KW 122 M
WEEZ(AM)/16785	Laurel, MS	890 kHz 10 kW-D ND
WFOR(AM)/54612	Hattiesburg, MS	1400 kHz 1 kW-U DA-1

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since the principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) of some of the stations are involved in mutual overlap, an ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

Radio Markets

The “radio markets” applicable to common ownership of the subject stations are defined as the areas encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The table below lists the defined markets:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	WFOR/WEEZ	WNSL/WUSW/WZLD
Market 2	WEEZ	WJKX/WNSL/WUSW/WZLD
Market 3	WEEZ	WJKX/WNSL/WUSW/WHER

Count of Stations in the Defined Market

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Markets	Minimum Number of Other Stations in the Radio Market
Market 1	7 AM, 21 FM; 28 Total
Market 2	6 AM, 22 FM; 28 Total
Market 3	7 AM, 24 FM; 31 Total

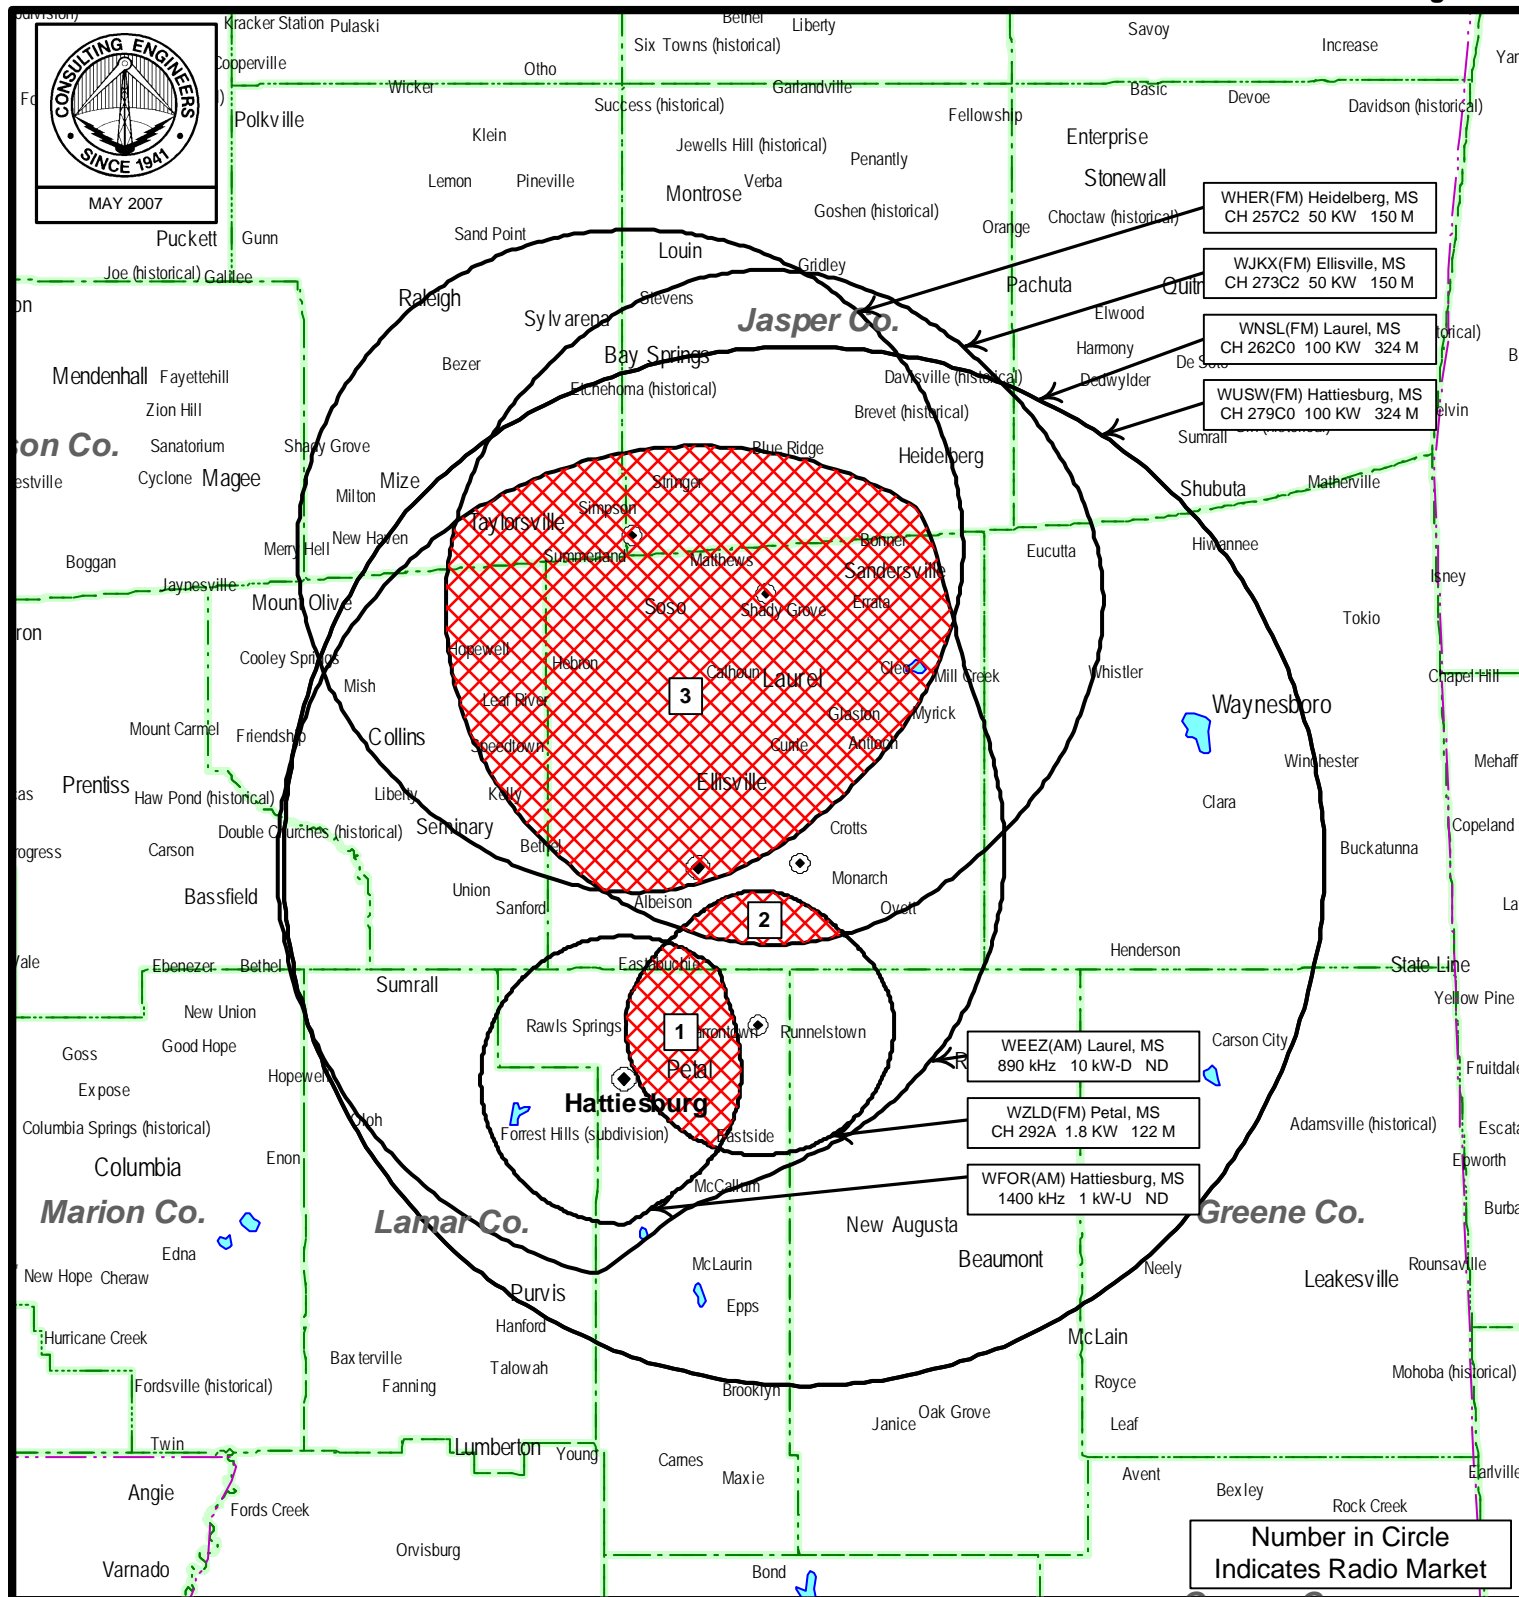

Figure 2 are tabulations of the radio stations identified in the defined radio market. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials evenly-spaced every 45 degrees of azimuth.

WIMA(AM)/37498	Lima, OH	1150 kHz 1 kW-U DA-N

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since the principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) of some of the stations are involved in mutual overlap, an ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

Radio Markets

The “radio markets” applicable to common ownership of the subject stations are defined as the areas encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The table below lists the defined markets:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	WIMA	WBUK/WIMT/WLWD
Market 2	WIMA	WIMT/WLWD/WMLX/WZRZ

Count of Stations in the Defined Market

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Markets	Minimum Number of Other Stations in the Radio Market
Market 1	7 AM, 18 FM; 25 Total
Market 2	6 AM, 20 FM; 26 Total

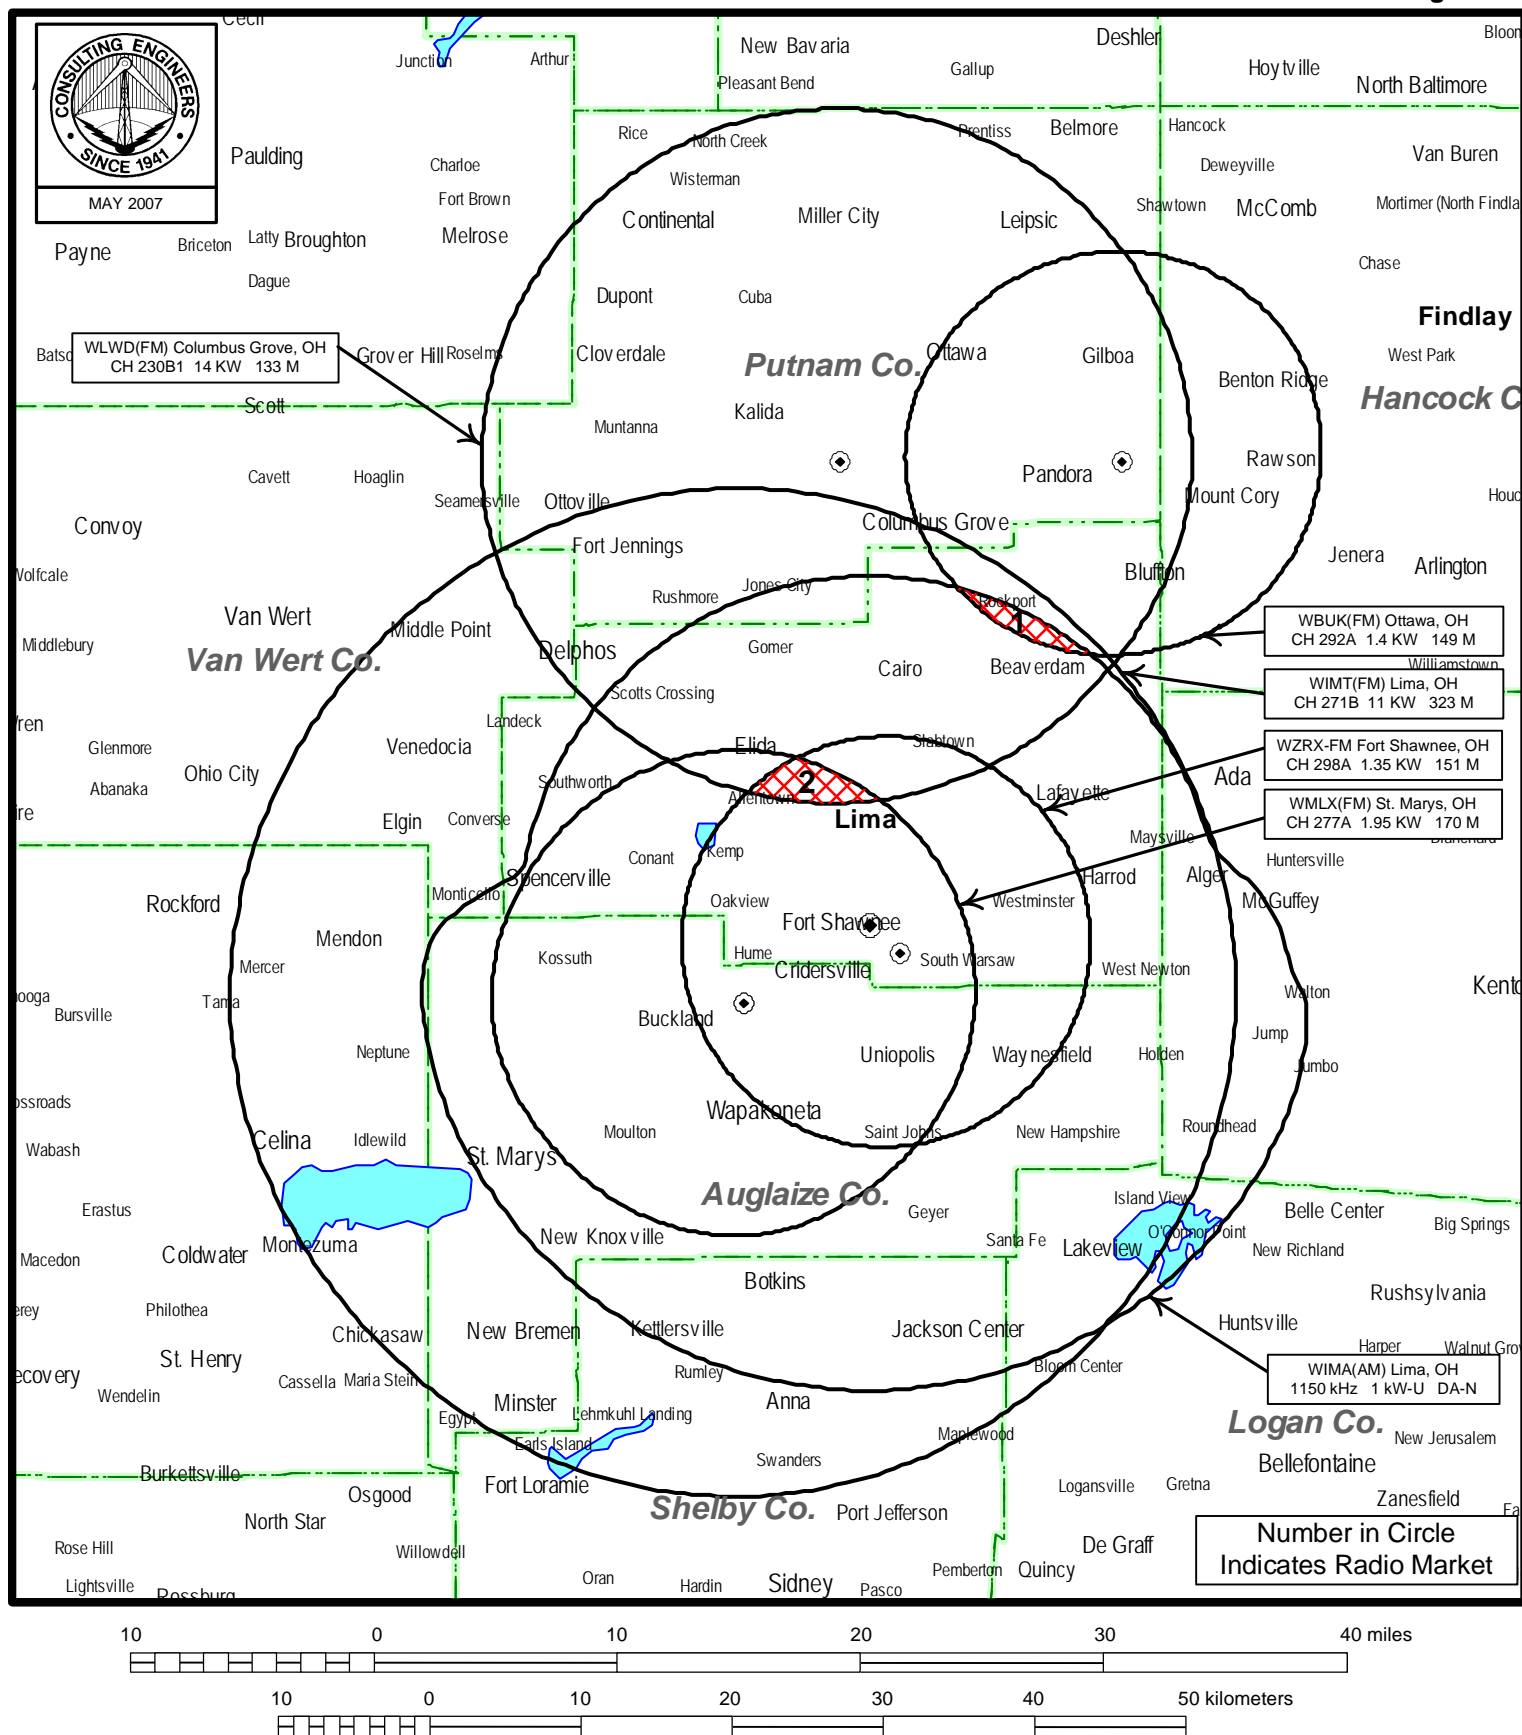

Figure 2 are tabulations of the radio stations identified in the defined radio market. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials evenly-spaced every 45 degrees of azimuth.

Number of Stations in Geographic Market 18

Previous Stations in Geographic Market

Minot, North Dakota

ENGINEERING STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
MINOT/BISMARCK, NORTH DAKOTA

This radio multiple ownership analysis was prepared to consider common ownership of the stations tabulated below under the FCC “Interim” contour analysis method. * GoodRadio.TV License, LLC. is acquiring several radio stations in the Minot, Bismarck, North Dakota area. Below is a tabulation of facilities for each station.

Call Sign / Facility ID	Location	Facilities
KIZZ(FM)/15968	Minot, ND	CH 229C1 100 kW 169 M
KMXA-FM/34996	Minot, ND	CH 260C1 100 kW 142 M
KQDY(FM)/2204	Bismarck, ND	CH 233C 100 kW 341 M
KSSS(FM)/2210	Bismarck, ND	CH 268C 100 KW 301 M
KYYX(FM)/55680	Minot, ND	CH 246C 100 kW 300 M
KYYY(FM)/41424	Bismarck, ND	CH 225C 100 kW 360 M
KZPR(FM)/9675	Minot, ND	CH 287C1 100 kW 169 M
KBMR(AM)/2207	Bismarck, ND	1130 kHz 10 kW-D ND-D
KCJB(AM)/55681	Minot, ND	910 kHz 5 kW-U DA-2
KFYR(AM)/41426	Bismarck, ND	550 kHz 5 Kw-U DA-N
KRRZ(AM)/9679	Minot, ND	1390 kHz 5 kW-D 1 kW-N ND-1
KXMR(AM)/2211	Bismarck, ND	710 kHz 50 kW-D 4 KW-N DA-2

The principal community contours of these stations are depicted on a map included herein as Figure 1. Since the principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) of some of the stations are involved in mutual overlap, an

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

Radio Markets

The “radio markets” applicable to common ownership of the subject stations are defined as the areas encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The table below lists the defined markets:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
Market 1	KXMR/KCJB/KRRZ	KZPR/KYYX/KMXA/KIZZ
Market 2	KXMR/KFYR/KCJB/KRRZ	KYYX
Market 3	KXMR/KFYR/KBMR/KCJB	KQDY
Market 4	KXMR/KFYR/KBMR	KYYY/KSSS/KQDY

Count of Stations in the Defined Market

The number of radio stations in a “radio market” is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations were not considered in the count of stations in the defined markets. The results of the analysis are tabulated below:

Defined Radio Markets	Number of Other Stations in the Radio Market
Market 1	5 AM, 6 FM; 11 Total
Market 2	3 AM, 4 FM; 7 Total
Market 3	3 AM, 13 FM; 16 Total
Market 4	3 AM, 12 FM; 15 Total

Figure 2 are tabulations of the radio stations identified in the defined radio market. Only known licensed, operating stations were employed for the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials evenly-spaced every 45 degrees of azimuth.
