Invisible Allies Ministries
1313 Valley View Rd.
Bellefonte, PA 16823

Dear Mr. Schomer,

This relates to the effort of Invisible Allies Ministries to increase the operating power of station WRXV, State College, Pennsylvania to 4.4 kW horizontal & vertical using an increased directional pattern. This letter is provided for the purpose of satisfying Section 73.525 and 74.1205 of the Federal Communication's Rules concerning potential interference created by NCE FM stations to the coverage area of television stations operating on Channel 6. Our concurrence is conditioned upon the following:

- (1) Neither Invisible Allies Ministries nor WJAC-TV anticipates that the power increase will take place prior to WJAC-TV vacating the channel pursuant to the digital television transition, which is expected to be completed on June 12, 2009, well within the duration of the construction permit you seek.
- (2) However, in the event the digital television transition is not completed on the currently anticipated timetable and WJAC-TV retains rights to operate on Channel 6 beyond June 12, 2009, until such time as such rights of WJAC-TV expire, you will notify WJAC at least one week before equipment tests will take place, and you will not initiate FM operation on Channel 206 unless and until all reasonable complaints of interference to Channel 6 which are triggered as a result of equipment tests have been resolved to the satisfaction of WJAC-TV. The existence of interference would be determined solely by WJAC-TV. You will comply with all pertinent FCC rules regarding the alleviation of any interference to WJAC-TV that may be caused by the power increase.

Sincerely,

A handwritten signature in black ink, appearing to read 'Richard D. Schrott', written over a white background.

Richard D. Schrott
Vice President & General Manager
