Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's displacement application rules. Specifically, the proposal does not include a reason for requesting displacement.

Additionally, the antenna information is not consistent with the overall height above ground as found in The Antenna Structure Registration Database.

You are hereby given the opportunity to file a minor amendment to resolve the problem within (30) days from the date of this letter. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
