Decatur, AL 35601

Re: R & B Communications, Inc. (RBC)  
WWTM(AM), Decatur, AL  
Facility Identification Number: 54328  
File No: BP-20170711AAQ

Dear Mr. Burns:

This is in reference to the above-captioned minor change application to change site, power, tower height, and city of license from Decatur to Mooresville, Alabama; and the October 16, 2017, request to withhold all further action on the application to allow time to amend.

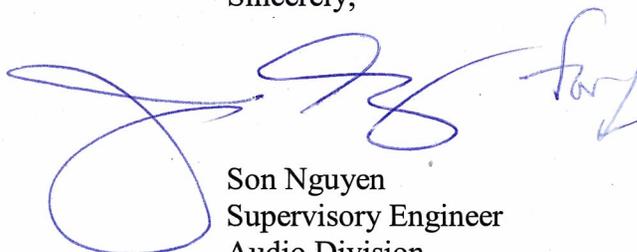

A preliminary review of the application reveals:

1. The application is in violation of Section 73.24(i) of the Commission's rules because it does not meet the 50% nighttime interference free (NIF) city coverage requirement, and did not include an NIF map exhibit in the application to show the proposed 25.9 mV/m NIF contours covers 50% or more of the city of Mooresville, as required for a city change application.
2. A text ground system description must be submitted to show the proposed number and length of the ground radials, which will be used by our staff to verify if the proposed efficiency (241.6 mV/m) is correct.
3. A USGS 7.5 minute map exhibit with the new transmitter site plotted on it must be submitted, as required by the Commission's rules and the FCC Form 301 instructions.
4. A TOWAIR exhibit must be submitted to show that the proposed tower passes the slope test for any nearby airports, and does not require notification to the FAA or tower registration.

Accordingly, further action will be withheld for 30 days to allow time to amend. Failure

to amend or respond with a written request for additional time within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

A handwritten signature in blue ink, appearing to be 'Son Nguyen', written in a cursive style.

Son Nguyen
