

Purpose of this Application

K219AW, Meeker, CO. was built and licensed in 1986 (BLFT-19860912TE). This application is being filed to correct K219AW's information to properly reflect its "as-built" and currently licensed status.

K219AW has been operating with its current facilities since the original license to cover was granted on 10/1/86. Hence, these corrections serve only to ensure that the licensed parameters comport with the actual parameters of the station. The coverage and interference characteristics of the station remain exactly as they have been since the license was granted.
