File No.: BMPDTL-20110623ACJ
WGOX-LP - Facility Id No.: 130457

Dear Applicant:

Your above referenced application which is a modification of a displacement application IS DISMISSED.

The modification contour of a construction permit must overlap with the licensed facility that was originally modified. In this case, the 51 dBu contour of the above application does not overlap with the 74 dBu contour of your licensed facility (BLTTL-20080530ABQ).

We also noted that we dismissed your previous modification application BMPDTL-20110318AAI for the same reason.

We will dismiss any future filing with the same reason without notification.

Sincerely

Hossein Hashemzadeh
