Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the application indicates the antenna as a directional composite which requires the filing of the relative field values. There were no relative field values filed for this directional antenna. Manufacturer: SCA – Model: CL-1469B.

In addition, the application for question 12 c shows the antenna is a N/A (Nondirectional or Off-the-Shelf) if the antenna as indicated above is truly a directional composite the selection for question 12 c is incorrect and should not be selected.

Sincerely
