Manson, Washington  
Baseline NCE Service Study**

A study has been made of the baseline (i.e. existing) NCE service provided to areas within the 60 dBu contour of the proposed NCE FM facility. Population counts are per the 2000 Census, using the block centroid method. The results of that study indicate that the following existing stations provide protected NCE service to this area, as depicted on the attached map exhibit:

<b>Callsign</b>	<b>Channel</b>	<b>Community</b>
KFIO	201A	East Wenatchee
KPLW	210C2	Wenatchee
KNWR	214C1	Ellensburg
KLWS	218C2	Moses Lake

The following table lists the population served by the proposed facility, along with the populations which will receive their first and/or second NCE service as a result of the grant of the instant application.

<b>Proposed</b>	<b>Population</b>
60 dBu	80,446
1 <sup>st</sup> NCE Service	9,071 11%
2 <sup>nd</sup> NCE Service	147 0.2%
