 Reference station has protected zone issue: FCC Mon. -Arecibo
 % = Station fails 73.215.

The proposed facility is a class B Grandfathered short-spaced station (as defined in 47 C.F.R. 73.213) serving San Juan, Puerto Rico on channel 289.

The short space relationship is with WIOC Ponce, PR. According to 73.213(a)(4), there are no distance separation or interference protection requirements with respect to second-adjacent and third-adjacent channel short-spacings.

Therefore, the proposed facility is in compliance with the spacing requirements versus WIOC.
