

APPLICATION FOR STATION LICENSE
WALLINGFORD COMMUNICATIONS, LLC
WLFX (FM) RADIO STATION
CH 294A - 106.7 MHZ - 3.7 KW
BEREA, KENTUCKY
May 2014

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Wallingford Communications, LLC ("Wallingford"), licensee of radio station WLFX, Channel 294A, Berea, Kentucky. Wallingford herein submits an application to modify the license of WLFX to increase power to the maximum allowed for a Class A facility with its licensed height above average terrain of 128.0 meters and to delete contour protection status. A calculation of the transmitter power output of the WLFX transmitter is attached as Exhibit A. Exhibit B is a computer printout of WLFX's compliance with the spacing requirements of §73.207, eliminating §73.215 contour protection status. Exhibit C is the FM RF worksheet demonstrating compliance with the Commission's guidelines to human exposure to radio frequency radiation. Attached as Exhibit D is the Fmpower results for the WLFX Class A equivalent power from the Federal Communications Commission's website.

Based on the foregoing, it is believed that WLFX is in compliance with the Commission's rules and that all conditions have been met.
