Re: KVVF (FM), Santa Clara, California  
Facility Identification Number: 19532  
Univision Radio License Corporation  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed September 29, 2006, on behalf of Univision Radio License Corporation ("Univision"). Univision requests further extension of the special temporary authority ("STA") granted on October 28, 2003, to operate Station KVVF (formerly KEMR) with reduced power.<sup>1</sup>

In support of the request, Univision states that Station KVVF has been required to operate with low power in order to avoid producing radio frequency field strength in excess of the FCC exposure standards at a nearby residence. Univision states that it is in the process of constructing a new, taller tower for Station KVVF.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but has been prevented from completing the work due to causes beyond its control.

---

<sup>1</sup> KVVF is licensed for operation on Channel 289B (105.7 MHz) with effective radiated power of 50 kilowatts (H&V) and antenna height above average terrain of 152 meters.

Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KVVF may continue to operate with reduced power. Univision must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 13, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.
