In re: Low Power Television Application of:  
Oneida County Translator District  
Channel 23, Malad City, UT.  
BDISTT-20051116AFA  
Facility Id No.:50367

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. KBTU-LP, Park City, UT. – BMPTTL-20040308ADC

In addition to the above issue, the community of service indicated on the proposed construction permit is Malad City, **UT**. However, the existing license BLTT-19810527IF shows the community of service as Malad City, **ID**. Since there are no changes in the coordinates between the existing license and the proposed construction permit, we anticipated that this was an honest typing error; nevertheless, this error must be corrected when you file the amendment resolving the interference issue.

You are hereby given the opportunity to file a minor amendment to resolve the specified interference problem and community of service state issue within (30) days from the date of this letter. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh  
Associate Chief  
Video Division  
Media Bureau
