Re: Homeslice Media Group, LLC (HMG)
KKLS(AM), Rapid City, SD
Facility Identification Number: 61320
Special Temporary Authority (STA)
BSTA- 20200528AAM

Dear Mr. Kinney:

This is in reference to the request filed on May 28, 2020. HMG requests a further extension of the STA granted on June 7, 2016, to continue operating with parameters at variance to allow time to file the required FCC Form 301 application (to change from DA to ND) due to problems caused by the installation of nearby power lines.¹ In support of the request, HMG states that it plans to file the application followed by an FCC Form 302 application, after the construction permit has been granted, in order to resolve all problems.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and HMG may continue to operate with parameters at variance and reduced power while maintaining all monitor points within licensed limits. HMG must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47

¹ KKLS(AM) is licensed for DA operation on 920 kHz with 5 kW day and 0.111 kW night, using different patterns.

CFR §1.1310. HMG must submit an e-mail to note the date the application was filed.

This authority expires on **December 3, 2020**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the end.
