TOWAIR Determination Results

*** NOTICE ***

TOWAIR's findings are not definitive or binding, and we cannot guarantee that the data in TOWAIR are fully current and accurate. In some instances, TOWAIR may yield results that differ from application of the criteria set out in 47 C.F.R. Section 17.7 and 14 C.F.R. Section 77.13. A positive finding by TOWAIR recommending notification should be given considerable weight. On the other hand, a finding by TOWAIR recommending either for or against notification is not conclusive. It is the responsibility of each ASR participant to exercise due diligence to determine if it must coordinate its structure with the FAA. TOWAIR is only one tool designed to assist ASR participants in exercising this due diligence, and further investigation may be necessary to determine if FAA coordination is appropriate.

DETERMINATION Results

Structure does not require registration. The structure meets the 6.10-meter (20-foot) Rule criteria.

Your Specifications

NAD83 Coordinates

Latitude	38-22-38.3 north
Longitude	082-30-56.4 west

Measurements (Meters)

Overall Structure Height (AGL)	54.9
Support Structure Height (AGL)	53
Site Elevation (AMSL)	271.9

Structure Type

TANK - Any type of Tank (Water, Gas, etc)

Tower Construction Notifications

Notify Tribes and Historic Preservation Officers of your plans to build a tower.
