To whom it may concern:

This letter is to certify that the **WSWS** Antenna at the Vandalia, Illinois location has been installed and aligned to an azimuth of within +/- 1 degree of 330 degrees True North based on Illinois State Plane (East Zone) Grid. Topcon Hiper+ GPS equipment was used to establish a point at an azimuth of 330 degrees True North from the Antenna mounting point. A Sokkia Optical Total Station was then utilized to site and correctly align the antenna.

Timothy C. Alverson
Illinois Professional Land Surveyor No. 3004
Expiration Date: November 30, 2012

Date of Survey: August 17, 2003
